Zero to 10K in 3 months DURING the pandemic using a Mobile

Hey guys

There's a huge amount of profit to be made flipping products right now but, only IF you spot bargains fast & sell the items as quickly... & that's where regular arbitrage fails

THE PROBLEM IS... usually you have to research the items and then list them for sale on platforms like Ebay, Etsy, Bonanza - that kills heaps of time..

But what if you could automate this process? A friend of mine Steve Hitson flipped over \$4 million of products.

Steve even set himself a challenge to make \$10k profit during the pandemic starting with Zero... he did it in just 140 Hours... with every purchase & sale documented

Now he did cheat a little - he's the inventor of a new mobile app that cuts 95% of the research & product listing workload for you.

You simply scan any item with a barcode & the app will access the web + a database of over 250 million records & pull up the details/current pricing & description of the product

It also auto-creates for sale listings on multiple major platforms like Ebay & Etsy & Bonanza for you in just 1 click... It's a slick app that works on both Android & IOS

Now you can download the free version of this app from the Apple/Play Store - which allows you to scan & research products.

The paid version does the real magic by auto-filling sales listings on Ebay, Etsy Bonanza

Check out ProFlipperz App < YOUR AFFILIATE LINK>

It's on sale right now with granddaddy deals if you get-in fast,

Regards

New Mobile App saves 95% Workload Flipping Products...

Hey guys

Whilst many people have lost their jobs, & governments went nuts with crazy pandemic rules people like Steve Hitson was making bank flipping products

Steve sold \$4M of products whilst working a FULL TIME JOB...with every purchase & sale documented by his wife (a tax accountant)

Steve set himself a challenge to make 10K profit starting from ZERO during the middle pandemic - he did it in just 140 hours

Now Steve had a bit of an advantage...

He's the inventor of the Proflipperz app (Android/IOS) that helps anyone get started in product flipping. The app cuts 95% of the workload researching products..

And...it even auto-creates for sale listings for platforms like Ebay, Etsy & Bonanza so you don't have to do the hard work filling out forms.

It does this by accessing a library of over 250 Million product records (growing by 100K records per day)

Important: there's a special offer on this right now but only if you get-in fast,

Search over 250M Product records & Sell in 1 Click

Hey Guys

If you are wondering how to make some extra green right now - this new app is INSANE!

Firstly, this is not a get rich scheme, it does require some work - but it's well worth the effort.

The person who developed it sold over \$4 Million of products PART TIME.

In a nutshell, it's an app that searches through 250 Million retail products & brings up all the product details simply by scanning a barcode.

And... in just one click you can create an instant for sale listing on platforms like Ebay & Etsy + more

It's an incredible tool for flipping or even for saving you money in stores... if you see a good deal - you can list the item for sale before walking out the door

It's on a granddaddy sale right now with pricing that likely won't be repeated.

10K in 140HRS during lockdown with this new app

Hey Guys,

Let's get real... most income claims nowadays are "questionable" at best ...

But, what if the claim came from someone who has sold over \$4M of products and every sale was documented by a registered tax accountant... that's harder to challenge.

But then... Steve Hitson is NOT your typical entrepreneur - he buys & sells household goods for profit.. products like: DVD box sets, lawnmowers, computers etc

Steve set himself a challenge to make \$10K profit in 3 months starting from NOTHING - during lockdown... & he did it in just 140 hours.

So what's the magic trick? The trick is SPEED of spotting good deals & speed of selling the items....

Steve has developed a mobile app that searches through 250 Million product records & brings up the details simply by scanning a barcode

And with one click you can create a fully populated for sale listing on platforms like Ebay/Etsy/Bonanza & more cutting out 95% of the workload.

Check out ProFlipperz App < YOUR AFFILIATE LINK>

It's on a granddaddy sale right now but, you have to be quick as the sale closes soon.

[Search 250M+ Products & Sell Items in 1 Click](#)

Hey Guys

What if you could literally pull-up the details on almost any product - check the details, the price & list items for sale on platforms like Ebay/Etsy/Bonanza in one click ... that would make flipping products super easy right?

Steve Hitson sold over \$4 million of products PART TIME - he's the creator of a brand new app that allows you research any product by scanning the barcode & auto list it for sale on all Major platforms.

Bargains are everywhere.... in Wallmart, Target, thrift stores, yard sales all you need is a fast way to spot them, secure your margin & sell them.

Which is exactly what the ProFlipperz app allows you to do... not to mention the savings you'll make personally by using the app.

It's on sale right now with one time granddaddy offers - but, you have to be quick as the sale closes soon.

Hey Guys...

If you need some extra cash then pay attention...

In May 2020 during lockdown Steve Hitson a \$4m arbitrage expert set himself a challenge to make \$10k in PROFIT whilst working a full time job.

He did it in 3 months working just 140 hours with every purchase & sale documented.

The coolest part is ... this entrepreneur has just created an app that will help anyone make profit flipping products.

The app allows you to scan any barcode - it will pull up records on over 250 million retail records so you can check the specs & selling prices...

,,and then it allows you to list products for sale on platforms like Ebay & Etsy in one click - it prefills all the forms & cuts the usual workload by 95%
