

Client Wolfie:

- Troubled Youth
- Worked for the two pigs
 - Did not kill them
- Mother in hospital
- needs money
 - Did rob red for money

Arguments against client:

- Hair sample found
- machete found under porch
- motive: pigs fired him
- little red saw the back of his head

What Prosecution Said:

1. Machete is wolfie's
2. hair sample
3. Show print shows wolfie was there
4. Wolfie is the man in a the mask with dark hair

What I can disprove:

1. why would the Killer keep the murder weapon if he was so thorough before?
2. how would a hair sample get onto the weapon
3. Jay B. Nimble knows wolfie jogs near the school in the mug for his knees.
4. There are many people with dark hair
- 5.

Arguments for client:

- The machete has no fingerprints all there was was a hair sample
 - The weapon could have been planted there and hair could have fallen off onto it.
- If he robbed people why didn't he use the machete?
- Close with the parents
- Even the sister thought they were terrible
- Just because Red saw the back of the culprit's head doesn't mean it was wolfie.
