09th December 2023

Dr Thusitha Sugathapala and Mr Ron Benioff, Manager of International Programs of National Renewable Energy Laboratory (ENREL), US

The discussion was held to explore the ways of collaborating with National Renewable Energy Laboratory (ENREL), US on RE development and electric mobility. Some of the thrust areas identified are,

Renewable Energy

- RE resource mapping, particularly Wind Energy
- RE integration to National Grid
- Methodologies for scenario analysis of RE development pathways
- Off-shore wind development as a long -term programme

Electric Mobility

- E Battery management aspect of EVs, particularly recycling in second-life
- Impact of large scale EV deployment on Grid planning
