Title: Engineers without Borders: Nepal and Guatemala Water Supply Projects

Date: 03/13/2025

Provider: Florida Section ASCE

Instructors: Daniel Vaca, P.E. and Jasmine (Perez) Gonzalez, P.E.

Hours: 1

Class Type: Face to Face

City: West Palm Beach

State: Florida

Description:

The presentation includes an overview of Engineers without Borders (EWB) and introduces the EWB Florida chapter. The presenters will describe the two water supply projects that the chapter has been working on: the Nepal Water Supply Project and the Guatemala Water Supply Project. They will describe the methodology used for these projects, using the Nepal project as a case study for the initial planning/assessment phase of Engineers Without Borders projects and using Guatemala as a case study for the implementation.
