

5 SUMMARY STATISTICS

MULTIVARIATE DATA

Five Number Summary

- Five Number Summary:**

5 Summary Statistics is a very powerful set of data when you are trying to compare between two variables. In statistics we worry about averages and the middle 50%. This data helps with this.

How to...

Video

[Finding the 5 Summary Statistics](#) - Khan Academy - Write summary notes from the video.

I can name the different parts of the 5 summary statistics and what each represent.

- Maximum
- Upper Quartile
- Median
- Lower Quartile
- Minimum

NuLake p. 16

ESA p. 175 Ex. C

I can calculate the Interquartile Range (IQR) from the data.
