Colorado Walmart Mass Shooting --- ===

November 1, 2017 Colorado Walmart Mass Shooting 3 killed, suspect at large. A gunman walked into the store and indiscriminately shot people with a handgun near the cash registers without saying a word, in a suburban Denver, Colorado Wal-Mart, killing three, 2 men and a woman, including one who was critically injured, and flees sought by police. Police can't rule out terrorism but have found no indications of a motive. “Ranking Homeland Security Official told media there are no known terrorism links at this time,” Thorton police spokesman Victor Avila said the shooting appeared to be a random act and that there were no indications that it was an act of terror at this moment. Along with other shootings and terrorist attacks it creates fear in just going to the supermarket for groceries. Photo of white male person of interest has been released, he fled in a red Mitsubishi mirage hatchback.

Alternative theory: Another obvious public mass shooting terrorist mall attack by a older white man who acts like an ISIS agent but is hiding any obvious connection to political or religious motive if he had one. Same type of suspect and target as Las Vegas terrorist attack which also an obvious terrorist attack with no evidence of connection to a terrorist motive.
