Project ID:	YW-2020-0053
Project Description:	Stillwater Ditch Repair & Measuring Device Upgrades
Reason for Project:	The Stillwater Ditch needs structural and flow measurement upgrades and repairs. The planned upgrades will increase the efficiency of both direct flow right and storage water conveyance to agricultural users.
Project Status:	July 2023: Repairs and upgrades planned in 2020 are complete. Additional repairs including lining of long sections of the main ditch system are planned.
Lead Proponent:	UYWCD
Lead Contact:	Andy Rossi
Estimate Cost:	$300,000
Water District	58
Project Key Words:	Agriculture
Estimate Yield:	
Water Right Needed:	TBD
