

Grade 9-12

- Regents Biology: Using the New Visions curriculum aligned to the NYSSLS
 - NYSED Required Investigations:
 - Structure and Function: Balancing Act
 - Inheritance and Variation of Traits: Lactose Tolerance
 - Interdependent Relationships in Ecosystems: For the Birds

Regents Earth and Space Science: Using the New Visions curriculum aligned to the NYSSLS

- NYSED Required Investigations
 - Space Systems: Unearthing Mars
 - Earth's Systems: The Ripple Effect
 - Weather and Climate: The Sky is the Limit

Regents Chemistry: OpenSciEd curriculum aligned to the NGSS

- NYSED Required Investigations
 - The Fast and the Fragrant-Evaporation and Intermolecular Forces
 - Bend and Stretch- Structure and Function of Designed Materials
 - Just a Drop- Properties of Acids and Bases

Regents Physics: OpenSciEd curriculum aligned to the NGSS

- NYSED Required Investigations
 - Induction Junction- What is your Function?
 - Wheels to Watts-Converting Energy and Maximizing Efficiency
 - Thermal Tales- The Story of Energy and Calorimetry

Elective Science Courses: Transitioning to the NYSSLS

AP Biology- College Board Curriculum

AP Physics- College Board Curriculum

AP Environmental - College Board Curriculum

College Now- Health & Human Disease partnership with LaGuardia Community College
