

Spring Lake Float Tube Clinic (Don Shaw)

April 28, 2024, 8 am to ?

This is only visible to club members. Please don't share this signup sheet with non-members. Outings are for members only. Note: If you want to edit signup sheet with a smart phone, install Google Docs App.

If you feel like you need any assistance on equipment or technique fishing at this location, or if you need some mentoring help, please ask the trip leader. We want you to have fun and be successful.

This is a clinic to introduce members to floatation devices. We are looking for:

- Club members who have float tubes and are willing to share.
- Club members who want to learn about floatation devices and want to try them out.
- Anyone can also bring a pontoon boat, kayak or paddleboard, but the focus will be on float tubes.

This clinic will be especially helpful to the women who are new to float tubing that are signed up for the May Luk Lake outing. Bring your fly rod and Luk Lake Fly Kit and we can help with rigging and you can fish if there is equipment available.

Equipment list

- Bring your float tube or other floatation device if you have. Also fins. If not, expect to borrow and note on the signup sheet.
- CO2 activated vest or life jacket (required on the water).
- Waders
- Sunscreen and glasses
- Change of dry clothes - just in case..
- Fishing rod if you want to get help setting up a rig or trying some fishing. (fishing depends on availability of a floatation device for you and is dependent on whether it is windy)
- Fishing license if needed.

Enter South Entrance, 5585 Newanga Avenue, Santa Rosa. There is an access fee of \$7.00 to access the park. Head to the left wandering past the camping areas until the road dead ends at the parking area and boat launch. (see map below signup sheet).

	Name	email	phone Home or Cell	Are you a float tube or other floatation device donor?	Role: Experienced? Willing to share? First timer? Just want to try different floatation devices?
1	Don Shaw	donjanshaw@comcast.net	707-477-5928	Float Tube	Outing coordinator. Experienced, will share
2	Eric Byous	byousew@yahoo.com	707-338-0744	float tube	
3	Noah Byous			float tube
