PERSONALITY

August is a carefree spirit who is always up for a good time. Sometimes, they come off as calm and relaxed, while other times they can be aloof and eccentric. Although they don't speak much, when they do, they can engage in conversation, which can sometimes be rather weird. But, at least it's a conversation.  
August is patient and friendly and always willing to listen. However, they can sometimes be dissociative and lost in their own thoughts, which can make them seem selfish and careless. Despite having a seemingly lifeless demeanor, they are very attentive when needed. Their curiosity and desire to experience life to the fullest drives them to welcome everyone with open arms!

BIOGRAPHY

TW: MENTION OF DRUGS AND USAGE

TLDR:

August Young grew up in a strict household with immigrant parents who pushed them to exceed expectations. Cooking provided comfort for August, as did socializing with friends, and they eventually pursued culinary school. However, they became involved in smoking, drinking, and partying, which led to a decline in grades and ultimately dropping out of culinary school.

After dropping out, August struggled to make ends meet and took on various jobs until becoming a chef and eventually a manager at a restaurant. Despite occasional partying, August finds fulfillment in other hobbies and tries to limit it. Recently, however, their curiosity and excitement for partying have been reignited by a mysterious festival..
