			Biology HL		[elective] Psychology SL

IB DIPLOMA PROGRAM COURSES at AST

Important Notes

Students can take only one of the following courses due to scheduling conflicts: French SL, Chemistry SL, Psychology SL, or Art SL. ***There is one exception; students can take both Psychology SL and Chemistry SL.***

Students earning the Honduran Bachillerato Diploma (all Honduran citizens) ***cannot take both IB Business Management HL and IB History of the Americas HL.***

Students can take two IB science courses; ***however, students cannot take both IB Physics and IB Biology SL or IB Biology HL.***

Students who take IB Chemistry SL will not be able to take 11th grade Computer Science Principles. Students will still take 12th Grade Computer Science; there is not a gap between these two Computer courses, as the learning outcomes are not linear or related.

IB Full Diploma Candidates are required to complete the additional three core components below:

Extended Essay

Theory of Knowledge

Creativity, Activity, Service
