

Generative AI can now convincingly duplicate a person's speaking voice, photos, video, and more. In order to protect against misuse of my identity. I am supplying a public encryption key.

If you would like to be certain of my identity, you can use this public key to query me and I will provide my identity by decoding the message with my matching private key. Thank you.

-----BEGIN PGP PUBLIC KEY BLOCK-----

Version: Keybase OpenPGP v1.0.0
