Description of Living Arrangement — [Click Here for more Pictures](#)

Location: close to Eureka HS, 6 blocks north of Henderson Center

Furnished room with Queen Bed and window alcove, 2 closets with clothes rails and large chest of drawers. Hallway bathroom next to the room, private to housemate. Open kitchen with commercial-style stove top and lots of cooking equipment. Washer/Dryer inside the house, off the kitchen. Craftsman-style home in friendly neighborhood. Option to enter the house from the side alley.

The home is very well maintained, comfortable, and with a layout that makes it easy for unrelated housemates to live alongside each other. There is a lot of furniture and other possessions but there is plenty of space to move around. Deck & fenced, private backyard. No animals. A small, well-behaved dog is an option.

The home provider recently retired from a long career providing addiction recovery services. She's a very early riser who is active in and outside of the home, loves gardening, reading, cooking, and eats lunch several times a week at the Senior Center with friends. She often goes swimming and has family visiting on occasion. She might drink a glass of wine here and there.

An ideal housemate would be congenial, open to checking in, and would be ok with alcohol present in the home. They would be willing to give a helping hand regularly (e.g., reaching for something up high).

Smoking is acceptable if done away from the doors/windows. Medicinal use of cannabis ok - outside.
