

CUI Student Release Form

[Date]

[Student First Name Last Name]

[Student A-Number]

[Student Department or Program]

After my [thesis or dissertation] has been cleared for public release, I agree to allow the UAH Graduate School to access my ProQuest account in order to add formerly controlled unclassified information such as my abstract and title and to submit my manuscript for publication on the ProQuest platform.

Before the copyediting deadline this term, I understand that I need to follow the directions provided by the Graduate School to create a ProQuest account with a non-UAH email address and to upload a placeholder pdf to my ProQuest account; a blank page with the title Placeholder Manuscript will suffice. Additionally, I understand that I must provide all ProQuest registration information to my department or program for secure storage until my manuscript has been cleared for public release.
