

JD For Ruby on Rails Developer

Job Title: Ruby on Rails Developer

Company: [Company Name]

Location: [City, State]

Job Description:

We are seeking an experienced Ruby on Rails Developer to join our team. The successful candidate will be responsible for the design, development, and maintenance of the organization's Ruby on Rails-based web applications. This is a full-time position that offers a competitive salary and benefits package.

Key Responsibilities:

- Design, develop, and maintain Ruby on Rails-based web applications
- Collaborate with other teams to gather requirements and design solutions
- Troubleshoot and resolve issues with Ruby on Rails-based web applications
- Participate in code reviews and ensure compliance with coding standards
- Stay up-to-date with the latest Ruby on Rails trends and technologies
- Ensure compliance with legal and regulatory requirements

Technical Competency Requirements:

- Strong understanding of Ruby on Rails development
- Experience with Ruby on Rails frameworks such as Ruby on Rails or Hanami
- Experience with HTML, CSS, and JavaScript
- Familiarity with web services and integration technologies
- Strong analytical and problem-solving skills

Behavioral Competency Requirements:

- Strong attention to detail and ability to meet deadlines
- Excellent written and verbal communication skills
- Proven ability to work independently and as part of a team
- Strong analytical and problem-solving skills
- Passion for Ruby on Rails development and a willingness to learn new skills
- Strong understanding of compliance and regulatory requirements

Qualifications:

- Bachelor's degree in Computer Science, Information Technology, or related field
- Minimum of 2 years of experience in Ruby on Rails development
- Strong portfolio of relevant work experience
- Professional Ruby on Rails certifications are a plus
