

## Pre-workshop

1. Install OpenDSS - <https://sourceforge.net/projects/electricdss/files/latest/download>
2. For third session we would probably need
  - a. Python3 - a version appropriate - if 64 bit recommend 3.9 - Install the native GUI IDLE
  - b. After installing Python 3 please install CORRECT Version of Pywin to Match your Python version - <https://github.com/mhammond/pywin32/releases>
3. <https://sourceforge.net/p/electricdss/discussion/?source=navbar>

## Workshop dynamic input

Clear
