Additional Information: The MP3's will be approximately 15 minutes to make it easier to fit into your schedule. To accelerate the integration, I recommend listening right before you go to sleep, unless you find the work to energizing...then follow your own heart and rhythm. The energy will continue to work through the night.

I will also encourage you to journal during this immersion, although it's not required. This will be to help bring unconscious energy into your awareness AND also for tapping into your innate wisdom.

It is HIGHLY recommended to maintain a clean and healthy diet during this series, including refraining from alcohol. Your body is your vehicle for anchoring this next level of Lightbody.

This energy immersion will provide a beautiful forum for deep physical and personal transformation. It's exciting to see where this level of Multidimensional Upgrades will take you!
