

*To say that Sir Woman has taken the crowded Austin music scene by storm this past year, would be a massive understatement. With the release of their full-length self-titled debut, the band has quickly skyrocketed to headliner status at Austin's most venerable clubs, and garnered Artist Of The Year at the 2023 Austin Music Awards.*

*The rolling funk/soul ensemble began as a solo vehicle for Wild Child/Glorietta vocalist Kelsey Wilson a mere two years ago. Their dynamic and joyful stage show led to quick buzz, with their recorded catalog quickly catching up to the acclaim (over 30 million plays on Spotify). They've also shared the stage with Black Pumas, Shakey Graves, Tank and the Bangas - and many more.*

*2023 included appearances at Newport Folk Fest, Luck Reunion, Jazzfest and an upcoming performance for Format Fest.*
