

How to Install Your 99-07 Edge CTS or SCT X4 Monitor Mount – IMPORTANT INSTRUCTIONS

Dear Customer,

Thank you for your purchase. Please follow the instructions below carefully to ensure proper installation of your CTS or SCT monitor mount. Failure to do so may result in damage to the product and will void all warranties.

Installation Instructions

1. **Attach the Mount to the CTS/X4 Monitor First**
   Before securing the mount to your vehicle's dashboard, you must **first attach the mount to the CTS/X4 monitor**.
   This step is critical to prevent undue stress on the mount during installation.

2. **Install the Monitor and Mount Assembly to the Dashboard**
   Once the mount is securely attached to the CTS monitor, you may then install the full assembly onto the dashboard as instructed.

Important Warning:
Installing the mount onto the dash *before* attaching it to the CTS/X4 monitor may cause the mount to **break or fail**. This is considered an incorrect installation.

Warranty Notice:
Improper installation – including installing the mount on the dash before attaching the monitor – will **void all warranties** associated with this product.

If you have any questions or need further assistance, please don't hesitate to contact our support team.
