

Draft for websites with a low average audience retention:

SL:

Hi {name}

Attention span is in decline and websites are getting boring.

The average customer only spends {x} seconds on your page!

If you can keep your customers on the edge of their seat for long enough, they'll whip out their credit cards faster than a gunslinging cowboy.

I can lend you a hand with that...

I will create a personalized video providing an in-depth analysis of your website design, including the placement of your Call-To-Action.

I'll review your website copy to ensure it has a clear message that resonates with your target audience!

AND

I'll chip in a few game-changing ideas to keep your customer's eyeballs glued to your page!

Hit me with a 'SEND' and I'll schedule a time to prepare it for you!
