

SAVE OUR SAY! MAY 17 DAY OF ACTION TOOLKIT FOR OUTREACH VOLUNTEERS

NOTE: This toolkit will be updated as we get more details and resources, please check back for the most current information!

WHY SAVE OUR SAY! ?

Missourians have used the citizen initiative process for over 100 years to have a say in the laws of our state. MO politicians want to take that away - we're going to save it!

WHAT'S HAPPENING ON MAY 17?

On May 17, Respect Missouri Voters and 50501 are teaming up with local organizations across Missouri for a day of action marking the end of the MO state legislature's session. This session marked a new low point in Missouri politicians' long history of attacking the will of the people. SB22, the "Let Politicians Lie Act" was signed into law by Gov. Kehoe in April, essentially destroying Missouri's citizen initiative process for anyone who is not the Secretary of State. The legislators who passed this bill are heading home, so we're holding rallies across the state to let them know what their constituents think about what they've done!
