Privacy Policy

App name: Pebble Sweep: Curling Puzzles
Last updated: 29 October 2026

1. Introduction

Pebble Sweep: Curling Puzzles is an Android game designed to provide offline puzzle gameplay.

This Privacy Policy explains how the game handles information when you use the application.

Developer name: [Enter your developer or business name]
Contact email: [Enter your public support email]

2. Information Stored on Your Device

The game may store the following information locally:

- Level completion and progress.
- Best scores and star ratings.
- Game settings and preferences.

This information is used to maintain your progress and settings between sessions.

3. Advertising

The game may display advertisements provided by Google Mobile Ads.

Depending on the advertising SDK configuration, your device settings, consent choices and applicable laws, Google and its advertising services may process information such as advertising identifiers, device information, ad interactions and diagnostic information.

Please consult Google's privacy information for details about its services.

4. Internet Connectivity

Core gameplay is designed to work offline.

An internet connection may be required for advertisements and certain privacy or consent operations. If advertising services are unavailable, gameplay should remain accessible.

5. Data Sharing

The game does not plan to include a developer-operated analytics service.

However, third-party advertising services may process or share information as described in their own privacy policies and according to the configuration used in the application.

The final disclosures will reflect the SDKs and services included in the released version.

6. Data Retention and Deletion

Game progress and settings are stored locally on your device.

You can generally remove this local information by clearing the application's storage or uninstalling the game. This does not necessarily delete information independently retained by third-party service providers.

Any applicable requests concerning information handled by third-party services should be directed to the relevant provider.

7. Children's Privacy

The intended audience and advertising configuration will be declared accurately in Google Play.

If the game is configured to target children, additional applicable privacy and advertising requirements will be followed.

8. Security

Reasonable measures will be used to protect information handled by the application. No method of electronic storage or transmission can guarantee absolute security.

9. Changes to This Policy

This Privacy Policy may be updated when the application's functionality, advertising integrations or data practices change.

The latest version will be published at the privacy policy webpage associated with the game.

10. Contact
