

In TV Production class, you are expected to work productively inside and outside of class on a daily basis. At times, your group's video will necessitate that you meet with partners after school or even over a weekend (for example, if you need a scene in a house, or in public). Furthermore, if you are absent, your group still must make use of allotted time and scheduling.

To that effect, please provide your best contact (cell phone) next to your name below. Please do not share this document with others who are not enrolled in the class.
