Student Teaching Experience

Grade 4, Glen Lake Elementary School, Minnetonka, MN

January 20XX – June 20XX

- Developed and taught a unit on the Reproductive Part of plants using a constructivist approach and literacy-building skills
- Planned motivating and engaging lessons for diverse learners in math, reading, science, language arts, and health that met district and state standards
- Provided differentiated instruction to meet the needs of up to 27 students
- Assessed student work formally as well as informally and used results to drive instruction
- Managed changing groups of students by engaging visual, auditory and kinesthetic learning styles
- Attended professional development trainings and reflected daily on all teaching experiences

Related Teaching Experience

Special Education Paraprofessional, Alice Smith Elementary, Hopkins, MN

Sept. 20XX - Present

- Supported students with autism, emotional/behavior disorder, Down syndrome, dyslexia and other learning disabilities with academic and social needs both in the regular education setting and in small group settings
- Instructed and managed small groups of up to 6 students in math, reading and social studies
- Assisted all students in regular education K-6 classrooms with math, reading, science, and social studies

Rock Climbing Instructor, Life Time Fitness, Plymouth, MN

March 20XX – Present

- Planned and taught children and adults about the safety of rock climbing and belaying
- Coached people of all ages as they trained to become more physically fit and technically advanced rock climbers

Summer Field Biology Teacher, Hopkins Community Education, Hopkins, MN

Summers 20XX – Present

- Planned and instructed two days of biology related activities
- Attended WolfRidge Environmental Learning Center for five days with approximately 80 students
- Lead small group activities focused on leadership, environmental awareness, and reflection
