 - [Work Day Scheduler](#): Day planner using moment.js and bootstrap.
 - [Weather App](#): Tool for searching weather in any city using the OpenWeather API and bootstrap.

ACCOUNT AND RELATIONSHIP MANAGEMENT

- Top sales performer at a market leading legal solutions company. Achieved 132% of personal quota for 2018, and made 105% or more of monthly quota all 12 months of 2018. Prospected and sold law books, seminars, e-books, and long term contracts through a high volume of outbound calls and emails. Used a consultative sales approach to have quality conversations with customers to build a robust sales pipeline, which resulted in consistent and effective revenue growth for the company in my territory.
- Productive loan officer at a credit union in the south metro. Main point of contact for credit union members and businesses looking to open deposit and loan accounts. Educated new and existing members of the credit union on financial health, as well as financial products and services.
- Worked cross-departmentally while in sales to provide solutions to client problems. Analyzed client situations to clear up credit and billing issues, and troubleshoot access to online and software services.
- Provided a high level of customer service at the credit union and in my sales role to build long-term trust and lasting relationships with stakeholders.

FINANCIAL MANAGEMENT

- Analyzed product list and historical sales data to estimate monthly territory revenue. Kept an organized Excel tracker for products sold, penetration rates, commissions earned, and quota metrics.
- Regularly demonstrated to clients the financial savings associated with long-term contracts through preparing custom reports based on their purchasing history.
- Analyzed and underwrote credit union consumer loans. Used lending metrics (debt-to-income ratios, loan-to-value ratios) and analyzed credit reports to determine eligibility for credit union loan products.

PROJECT MANAGEMENT

- Managed a project team of 60+ people at a fortune 6 healthcare company to facilitate “Member Move.” “Member Move” involved loading new health plans into the company’s core eligibility system for automatic renewal of current Medicare Advantage, Medicare Part D, and DSNP members. Four-month project affecting 6 million members.
- Used Microsoft SharePoint to build an internal website to track and combine multiple departments’ portfolios of projects. Gathered data and worked with managers from each area to effectively meet their requested tracking, reporting, and lookup capabilities while creating the tool.

Experience

CAPABILITY MANAGER | UNITEDHEALTH GROUP | APRIL 2019- PRESENT
