

[A4A] Random Encounter With A Vtuber [Vtuber][Embarrassed Speaker][Wholesome]

Summary:

Just an average day, enjoying a cup of coffee in a coffee shop you have been told about, reading a book. Suddenly, a stranger approaches you, but their voice sounds so... familiar?

Author's note:

I wanted to try this idea that came to mind during the holidays for fun (Yes, since the holidays. This script got reworked several times). I've set my mind on a Vtuber meeting a viewer IRL randomly and is embarrassed. I'm not a Vtuber myself, but I've always wondered what they would do if this situation happened.

Monetization is allowed, altering the script/gender is fine by me as long as I get credited by my username (u/JonYaBoii). I would appreciate that you submit your fill so I can listen to it. If it's behind a paywall, please provide me access to the audio file.

Spoken word count : 1173

** are used mostly for sound prompts from the VA or SFX (optional). Can also include narrative context for the next lines.

Italics are used for emphasis on words

() are used for tones.

Intro:

You're looking for a place to sit in the coffee shop. This is where you spot a free chair in front of the listener, reading a book. You approach the listener to ask him if you can sit with him

Excuse me! Hi! Umm. Do you mind if I sit here?

Pause

(Overly enthusiastic) Thank you, thank you, thank you! I appreciate it!

Pause

Yes, I know. This place is always jam packed. Everything they do, it's the best. I especially like their Chai Latte.

I usually take it to-go and drink it while doing stuff at home. Although today I wanted to enjoy it here. So, um...

Pause

Thank you again for letting me sit with you! I won't bother you anymore.

After a few seconds, you chuckle nervously

Uh... what's with that look? I got something on my face?

My voice? What about it?

nervous chuckles

I mean, I come here *often*, so you may have heard my voice a few times.

(nervous) I-I don't know what you're talking about. I'm... not active anywhere online. I-I'm just a normie who watches Netflix and um-

W-what did you say?

You shush repeatedly

(soft voice) Don't say that out loud! We're in public!

(soft voice) Ok, fine. I admit it. It is me

(nervous) Oh gosh! What do I do, what do I do, what do I do!?

I mean, I didn't plan to encounter one of my viewers, like, *at all!* But now, we're here and I even started the conversation by asking you if I could sit here. So, it would be kind of disrespectful and not cool for me to just leave now, would it?

muffled nervous mumbles

N-no! I'm not saying that I *want* to leave. I'm just saying that, um, I'm kind of glad to meet you. But, you know, Vtuber and IRL meetups. It shouldn't be a thing! I-I-I...

Pause

Is that a promise? Please, promise me you won't say a thing about this!

Oh my god, thank you! I appreciate you respecting my privacy. Thank you!

Alright, calm down a bit. I was just overthinking things...

Alright, so um... Do you mind telling me your name? I mean, your username, not your IRL name of course.

Oh, it is you! Oh my god, one of my regulars! So nice meeting you!

Do you mind telling me what else blew my cover other than my voice?

Pause

Oh, *that*? Wow, yeah. My chuckles are pretty unique.

Pause

Oh yeah, of course. Duh! My drink

It's true that I usually start my stream by chatting with you while finishing up my drink. Damn, makes me wonder how well you guys really know me.

You laugh and pause

Oh sorry. I didn't mean to stare. I was lost in my thoughts. I'm still getting over meeting a viewer.

You know, now that I'm seeing you, I can finally put a face on you when I see you in chat.

It feels weird, doesn't it? We both know what we look like IRL, now. It's going to "break" the little magic from the online world.

You must be joking. My model is way cuter than I am and that's a fact. But-

(blushing) Thank you for telling me that. I appreciate it.

I'm not blushing! I'm just a little bit nervous. That is all.

I mean, it's literally the first time that I stumble upon one of my viewers and here you are complimenting my look. Of course, it would make me feel that way.

Although, I would admit that you also look better than I imagined.

“What’s wrong, are you blushing?”

I’m teasing you! Gotta make it back from all the teasing you all make on my chat.

You laugh

So yeah, um. What now? Oh, I’m sorry, still speaking my thoughts out loud. It’s a streamer thing I suppose.

Yeah, I’m always speaking to myself because it helps me keep my train of thoughts. It may have annoyed a lot of my friends. Oopsie!

Oh, you know. “Oh my god, would you *please* stop speaking your thoughts out loud!” It’s not my fault if I like to narrate my own life. I like being like that.

Of course, it makes up for my charm! I got to be entertaining for my viewers and that’s one way to do it. It just works, right?

I mean, you’re still sticking around my channel. You’re clearly not here for my “mad gamer” skills.

You laugh

The only game I like to try hard is Mario Kart and you have seen me play it. I always end up falling in the most random way. So that proves that I’m not here to be the best, I’m here to have fun with you and chat, of course.

(Excited) Speaking of which, I assume that you have seen my schedule this week? We are having a friendly Mario Kart session vs my Vtuber friend’s community.

It’s our community vs theirs! I will need *you* on my stream.

I know I said that it’s a friendly event but, wouldn’t it be awesome if we win? We must prove that we’re the best!

Oh shoot! I’ve been talking about myself for a long time... Um.

you chuckle nervously

Anyway, enough about me and my streams. I didn’t know you lived here. How long has it been?

So, you’re still kind of new to this city I see. You don’t have to answer this, but I suppose that you live nearby?

Oh, I know that park. That's kind of close to here.

It's one of the best neighborhoods in this city. Close enough from downtown without the downsides that comes with it, like the overpriced rent and noise pollution.

You've lucked out. I'll give you a piece of advice. Don't move out. If you do so, stay in this neighborhood.

You're welcome!

You make agreement sounds like you are actively listening for a few seconds

I totally get that. A fresh start in a big city like this. I've also been there. This isn't my hometown either.

Oh, that's right. I just remembered that! You were talking recently about having an interview for a new job. So, how did it go? Any news since then?

You gasp

Yo! That's so cool! I'm so happy for you. That's one hell of a way to start a day with a happy vibe! We have to celebrate it with chat tomorrow!

I remember how stressed you were about this when you mentioned it. But, hey! Now, you got it!

Oh yeah, screw your previous job. With the few details you gave in-chat and discord, this place doesn't deserve you at all. I'm sure that your new job is going to treat you way better than they ever did and that you're going to grow in this place a lot.

Of course, I care about my community. Every single one of you. I want to keep up with how everyone is doing and of course, as a content creator, we always wish happiness for our community.

You guys always make more than half of my content. Without you, I wouldn't be the streamer that I have become over the years and every time I press "start streaming" I look forward to seeing everyone in my chat just goofing around.

you laugh

Even on my "starting soon" screen, it makes me smile seeing you guys popping with your greetings and emotes.

Pause

Oh? You're leaving? That's... a bummer.

(embarrassed) Do I look that upset?

Yeah! Of course, totally understandable. You have your own things to do. No worries, it's just that, um...

I'm glad to have met you IRL. Way more than I would've imagined.

So, you're going to keep your promise right? Not a single word about what happened here.

You laugh

Alright, I hope to see you in chat tomorrow and um...

(shy) If you ever see me here or anywhere else, d-don't be afraid to say hello, okay?

you laugh gently

Alright, see you around! Bye!
