

Assistance: Dinka, English with Arabic and Swahili in one App

This app presents to you the Dinka Southwestern New Testament. On the same screen, you can set up a parallel view of the same text. You can choose to see the same text either in English, Arabic (two different versions) or Swahili (two different versions) depending on your choice or preference.

If you press the little “book” icon on the top right you can change the windows on the screen: Now choose either

- “single pane” if you want to see the Dinka only
- “two panes” to display the Dinka at the top and the English, or the Arabic, or the Swahili version at the bottom
- “verse by verse” to display a verse in Dinka followed by the same verse in one of the languages of your choice.
