

***"I ordered 'The Madison' with body wave styling and I'm thrilled the way it came out. Most other wigs never fit my head but Temporal is spot on with their fitment. I've never installed a wig before the included kit made installing so easy."***

## IMAGINE YOU... TURNING HEADS COMPLIMENTS GALORE

**What every fashionable woman must know... and how it will change your life!**

✓ **Custom Tailored:** Unlike other hair pieces, **LustyLuxe™** is made unique for every individual woman. Other options do not consider the individuality of the client, so they will send you a mass produced synthetically blended wig that's suppose to "fit all" leaving women with cheaply made hair (that people can obviously tell is a wig) that won't fit you correctly.

## A LOVELIER NEW LOOK... IN JUST A FEW SIMPLE STEPS

✓ **Easy to apply:** Each hair piece comes with our *LUXIFY Install Kit*, making it **quick** and **simple** to install your **LustyLuxe™** hair piece without hassle, or damage whatsoever.

What's *even better* is that you do not need to be a professional hairdresser to install your wig perfectly.

## LONG LASTING HAIRSTYLES—OR YOUR MONEY BACK

✅ **Versatile:** **LustyLuxe™** hair pieces can be worn in any situation from casual work wear to night outs with the girls. You do not have to worry about not having the perfect hairstyle, you can easily apply it and get back to your busy schedule.

So you can spend more time looking your absolute best, and less time worrying.

With **LustyLuxe™** nothing is left on the table. Each hair piece is tailored, styled, and curated your exact desires perfectly. This is for the kind of woman who takes her fashion seriously and wants to make an immediate impact in her natural beauty.

We all have that certain **look** that we're after those days where we're really feeling ourselves, and we especially know how **annoying** it is for our hairstyle not going the way we want. So many styles we *know* we'll look darn good in, but we can't just walk into any hair salon and get whatever hair style we want.

Sometimes we wonder how we'd look with some blonde highlights, maybe a nice root ombre, or perhaps something more **bold** in color and style. Maybe a pixie cut or a Bob with a beautiful A part.

With **LustyLuxe™** there are unlimited options because it all depends on your own personal style so no two hair pieces will ever look the same.

**It's time for you to make a Fashion Statement.**
