

Do not trade/sell my designs to the following users on my blacklist:

- ★ akira_no_soraa on instagram / AXEL-LEA, SUGAR_OWO, HOPSCOTCH-SORA, MYSTA-RIAS, BAKENKO-NO-AKI & KORU-KUN on toyhouse/vgen/instagram (circumvented my blacklist to obtain my designs on purpose.)
For updated usernames and why they're blacklisted, please refer to the Cole_callout account on instagram. He is one of my current stalkers and is/has been obsessed with me since I was a teenager.
- ★ CYANIDEJELLYFISH on toyhouse/Ponytown theft and crossing boundaries
- ★ luvspork on instagram (unsure of toyhouse, please double check)
- ★ katsuki/august neptail on dA & toyhouse (stalking friends and stealing art/ocs for up to 7 years straight)
- ★ luvbunbunn/like.an.enderman on twt (jeremy) (for updated account usernames, check jermy.the.germ to be sure you are not giving my designs to any of his accounts) one of his current toyhouses is milkybread
- ★ punkbunni on toyhouse / decaying.irl on instagram (tracing my artwork twice/violating boundaries)

I will give strikes to people who violate the TOS on a case by case basis and add people to my design blacklist if necessary

TOS BELOW:

- If traded a character, do not resell it for currency unless accounting for extra art added after the fact. Only sell for the value of extra art added.
- if you are sold a design, do not upsell higher unless adding artwork.
- if a character is POC coded, transgender, fat, or disabled, do **not** change this upon purchase. Doing so will land you on my public blacklist and I will list why you're there. (Changing a minority coded character into something else is akin to "fixing" that minority to fit your aesthetic and is something I will not tolerate.)
- do not delete or reupload my designs in order to reupload edited versions of my artwork. If you want something edited please dm me.
- keep a design for at **minimum** a week before resale/retrade unless it is an emergency financial situation in which case you can dm me for permission!
