

## Screening Eye Exam at the ESS 2024 National Open Championship & National Amateur Championship

**Date/Time:** Dec 12      Thursday      1pm-6pm  
Dec 13/14      Friday/Saturday      8am-6pm

**Place:** Pyramid State Park, Pinckneyville, IL (Look for signs to a trailer on the trial ground!)

Help researchers at Michigan State University investigate the significance of a gene mutation related to progressive retinal atrophy (PRA) in the English Springer Spaniels. This is an inherited disease that can affect vision in the English Springer Spaniels.

TWO ways to participate in the study free of charge, courtesy of the ESSFTA Foundation.

① **Eye exams and blood draw** (Best way to help! [Sign-up sheet below](#). Walk-ins OK but may wait)

- Electroretinography (retina function test) and eye photography included
- Pupil dilation from the eye drop will resolve within 4-6 hours
- Get a summary report of the eye exam and DNA testing of the PRA gene (*RPGRIP1*)

② **Cheek swab only** (Walk-ins OK)

- Timing does not work out? Stop by to have a cheek swab done!
- Get a summary report of DNA testing of the PRA gene (*RPGRIP1*)
