

Dajjal

It seems that the purpose of casting دَجَّال and, in Koran, also دابه من الارض is pointing to internet and computer. The description about دجال presented in

Christianity and afterwards in Islam (like cases about several eyes (including ones behind head) and glass and crystal (maybe in pointing to the glass of monitors) and ... and scintillation of light and slogan and ... and bigness and ...) shows similarities to internet and computer. In Christianity, in the book 66, Satan attributes the number 666 to دجال. Meanwhile, in three other places in Torah this number has been attributed to the gift the Queen of سبا gave سليمان (and this has been endorsed by Koran) ie to a gift from a laic civilization (the Queen of سبا) to an inward civilization (سليمان). Internet and computer are in fact like gifts from a laic civilization (the West) to Islam (an inward civilization).

If we substitute the digits of 666 with their gematrical value we obtain ووو which its latin equivalent is www. And also if we write 666 in latin we'll have 666 which after rotatiting it within 180 degrees we'll have 999 which is similar to the same set of three letters ووو which its latin equivalent is www. For 999666, which according to what said can be said that is the same وووو, we have $(684-1134 \times 47) \times 19 = 999666$ in which 1134 is the gematrical value of دابه من الارض and $684 (= 19 \times 36)$ is the gematrical value of كومبيوتر. For this expression we have also $3 \times 666 \times 19 + 4 \times 666 \times 19 \times 19 = 999666$ in which maybe 3 is pointing to the three letters of www.

27:82 و (6) اذا (702) وقع (176) القول (167) عليهم (155) اخرجنا (855) لهم (75) دابه (12) من (90) الارض (1032) تكلمهم (535) ان (51) الناس (142) كانوا (78) بءايتنا (465) لا يوقنون (253)

This verse points to a creature, created from the earth, that appears and has role in speech with the people. Some people believe that this creature is computer which through internet speaks with people. In all the other verses of Koran in which both of the words دابه and ارض have come always the speech is about دابه في الارض which means a creature in the earth. Since we are living in the earth's atmosphere which is really a part of the earth, we are in fact living في الارض or in the earth. But in 27:82 the speech is about a creature from the earth ie probably a creature made from the materials of the earth like the silicon which is the necessary basic element for making computer and is rampant in the earth. Numerical miracles of Koran were discovered through computer and were disseminated through internet speech. For the verse 27:82 we have $2+7+8+2=19$ and if we write the digits of the two numbers of 27:82

conversely, we are guided to 72:28 which is a verse saying that God has control over everything and has accounted the numbers of everything: ...

و احاط بما لديهم و احصي كل شيء عددا

Gematrixal value of 27:82 is 4794. Gematrixal value of the first part or the first seven words of the verse (و اذا وقع القول عليهم اخرجنا لهم) is 2136.

Gematrixal value of the last part or the last six words of the verse (تكلمهم ان الناس كانوا بءائتنا لا يوفون

2×38×38-(82+1524+2136+27)×7×38=999666 we have also

2×38×38-(82+1524+2136+27)×7×38=999666 in which (2×19=)38 is the gematrixal value of دجال and 27 is the number of the سورة and 82 is the number of the verse and 2136 and 1524 are in turn the gematrixal values of the first and last parts of the verse.

دابه plays a basic role in 27:82 which apparently has a direct relation with computer or كومبيوتر having separated gematrixal value as (40)م (6)و (20)ك (200)ر (400)ت (6)و (10)ى (2)ب, and the following relations, with 12 as the gematrixal value of دابه and 684 as the gematrixal value of كومبيوتر and 3 probably for pointing to the number of the letters in www, probably are pointing to this matter: 14278×19=82 12 27 and 3×12×19=684 and ×12×19=20 6 40 2 10 6 400 200....

Does really دابه من الارض intend اينترنت? It seems that the following relation states that in 27:82, 1134) دابه من الارض intends :اينترنت(1111): 82 1111 1134 27=19×793. It is interesting that the sum of the digits of 793 is 19, and in principle 793 is equal to 127+666 in which as we saw 666 is probably the sign of دجال and 127 is the real number of the 9th سورة. 793 also appears in the separated expression of ل(1) ا(3) ج(4) د(جال): (82+684+27)×38=2×19-2×19×19+(82+666+27)×38=(127+666)×38=793 ×38=4 3 1 30

In which 38 is the gematrixal value of دجال and 684 is the gematrixal value of كومبيوتر. Also if we write the separated expression of دجال conversely we'll have 38+684×19-684×82=38+1134×38=30 1 3 4 in which 1134 is the gematrixal value of دابه من الارض and 82 is the number of the verse,

In principle considering that if really the number of the verses of the 9th سورة is 127 this fact has been proven in this era using computer (or 19×9×4=684=كومبيوتر) and has been publicized via internet, the expression 127-684+82+27=666 will gain more meaning for www.

That probably 1032) الارض(90) من(دابه)12) in 27:82 is the same internet دجال is also reinforced with ...×19=82 1111 38 1032 90 12 27. And that substituting the expression 1032) الارض(90) من(دابه)12) in the verse with (كومبيوتر)684) and writing the gematrixal values of the words of the verse

from left to right as
253 465 78 142 51 535 684 75 855 155 167 176 702 6 yields a multiple
of 19, and that also both substituting this expression with 684, gematrical
value of كومبيوتر, and writing the gematrical values of the words of the
verse from right to left with the number of the سورة at the left
(6 702 176 167 155 855 75 684 535 51 142 78 465 253 27) and
substituting this expression with 666, referring to www, and writing the
gematrical values of the words of the verse from right to left with the
number of the verse at the left
(6 702 176 167 155 855 75 666 535 51 142 78 465 253 82) yield two
multiples of 19, probably endorse the matter.

We divided this unique verse in سورة 27th into three parts of «و اذا وقع القول» and «عليهم اخرجنا لهم» with the gematrical value of 2136 and «دابه من الارض» with the gematrical value of 1134 and «تكلمهم ان الناس كانوا بءايتنا لا يوقنون» with the gematrical value of 1524. Probably this division is endorsed considering that 2136 1134 1524 27 (like 27 2136 1134 1524 82) is a multiple of 19. In this state substituting 1134 with 666 (and also 684) in the form of 82 1524 666 2136 27 (and 27 2136 666 1524 82 and 2136 684 1524 82) yields yet multiple of 19.
