

Administrative Report April 13, 2022

ATTENDANCE

Ten letters have been sent home this month for excessive absenteeism.

FACILITIES

We purchased air purifiers for each classroom/office with our first air quality award.

Swing fence - bus lane

HVAC in portable - money is available - need a plan for replacement/repair.

Rocks are bare in some spots around campus and need to be filled in.

STAFFING

Denise Gilson has taken over for Ms. Sims in middle school math and will continue teaching math and history next year.

We have hired a 5th grade teacher. Breanna Leseberg, who is currently running the after school reading intervention, will be our new 5th grade teacher next year. She is super excited to be joining CVCS and has one child currently attending kindergarten at CVCS.

We currently have 11 applicants for the admin position.

SUMMER PROGRAMMING

We are looking for a curriculum that will focus on Math and Reading skills. Summer school will run June 7-June 23 tentatively.

COVID/ILLNESS UPDATE (February 8th most recent update)

We have not had any Covid cases. We are currently dealing with a stomach bug in the lower grades mainly.

CORE TEAM ACTIVITIES

Teachers decided the Leadership Team should be called the Core Team so the name was changed. We are currently working on another last minute PED requirement. There are 32

components for us to complete by April 28th. It seems a lot of charter schools were left out of the initial email thread. The Core Team is made up of Emily Brindle, Kristen Willoughby, Heather Burnett and myself.

PARENT/GUARDIAN SURVEY

The survey ended with 142 responses for 84% participation. Last year we had 96% participation.

Standout comments were related to dress code, adding a high school, adding more play equipment and space and security on campus.

I am working on the teacher survey and a student survey. Students have formulated questions they would like to address.

STATE ASSESSMENTS

Students in 5th and 8th grade will take the NM-ASR science assessment on April 19th. Students in 3rd-8th grade will take the NM-MSSA ELA and Math on April 26th (Tues.) and 28th (Thurs.). We plan to have free dress on Wednesday and Friday for all students who are present during testing days.

AVID

In preparation for implementing AVID, Middle School teachers are scheduled to attend AVID training in July in San Diego.

FILM PRIZE COMPETITION

Our 6th-8th grade students participated in the Film Prize competition. We submitted 6 short films for the competition. Forty of our 58 students will be traveling to Santa Fe on April 24th for a Red Carpet event and award show.
