

FFIV Any% no Credit Warp 12 Item Route and Inventory Management Notes (By the_roth)

This assumes you know how to do the 64 door glitch. Watch the end of

<https://www.twitch.tv/videos/148434787> for how to walk in the glitch using the 12 item route

Dupe Kain's **Iron Shield** during Mist Dragon

Mist

Buy 10 Dancing Daggers

Rydia/Titan Fight: Move Change Rod to 6R

Fabul

Arrange inventory like this during the gauntlet (**Right**). I try to dupe the FireClaw during 4th battle, and remove it during 6th battle.

Mysidia

Item Shop: Sell 2 x 70 Fire Claws, buy 70 x Cure2

Armor Shop: **Buy 6** x Gaea Helm, Silver Ring, Paladin Shield/Armour/Arms (9 item route buys 5 here)

Milon Fight

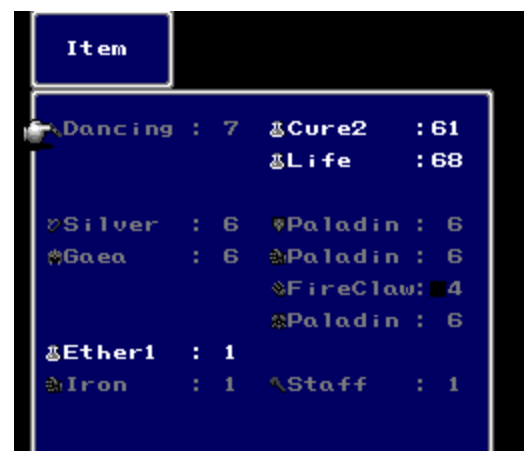

Arrange Items like this (**Right**) - Note that when moving the Fire Claws down I put them at 9R first, then swap its position with the Change Rod at 6R. These 2 items are placeholders for 2 warps later on.

MilonZ Fight

Arrange Items like this (sets up for Baron shopping later).

You can get a lot of menuing done with Cecil's turn during the Ice 2 (if you get it) and also during Tellah's turn when MilonZ Dies. Equip the Change Rod here, the Staff goes into its required spot for the warps later on.

Dk. Cecil - Arrange inventory like this (**Right**)

Baron Guards / Yang fights

Move Dancing Daggers down to bottom somewhere during an attack

Baron Shops

Armor Shop: Buy 10 x Headband, Karate

Weapon Shop

Buy in this order:

4 x 13 Cure Rod (3 items fall into right places already)

2 x 48 Ice Claw

58 Ice Claw

68 Fire Claw

20 Cure Rod (press X 5 times) (bold items not bought in 9 item route)

Baigan

Bring Ether to 1L, Iron Arms to 4L, equip Ice Claw from 58 x Ice Claw stack

Kainazzo

After this fight (**Right**) you should try to have the bottom warps complete (should only need to move 1 item in the Ice Claw x 57 warp). Try to move the Silver Ring, Gaea Helm and Paladin Shield to the bottom too. Make sure you have empty slots near the top for duping Cecil's weapon slot.

Just get through the fight quickly

Flame Dog

Dupe Cecil's weapon slot

Free up slot 1R for Fire sword

Move one of the 48 Ice Claw stacks to 4L or 5L

Magus Sisters (plus Flame Dog if you couldn't menu)

Try to have menu like this (**Right**). The key is having both 48 x Ice Claw stacks moved up

Pre Valvalis Menu

Stack the 48 Ice Claws together so they form 96 Ice Claws on 4L (next to Cure Rod x 20)

Post Valvalis (during Death animation) / Golbez

Getting through Valvalis quickly is more important than waiting on turns to hope Valvalis dies early so you can menu. Have the menu like this (right image just shows useless items removed for clarity, Life items also not needed here)

Item	
^Cure : 13	FireClaw: 68
Paladin : 6	Cure2 : 55
Karate : 7	Life : 64
IceClaw : 96	Cure : 20

After losing Kain at Sealed cave, menu and swap the 13 x Cure Rod stack (1L) with the Life Items (3R). This breaks the Sealed Cave Warp (68 Fire Claws) and activates the Moon Palace Warp (96 Ice Claws)
