Activity Guide - Using the Problem Solving Process

Word Search

Overview
Working with a team find the following words in the grid. They may be horizontal, vertical, or diagonal in any direction.

DEFINE, PREPARE, TRY, REFLECT, PROBLEM, SOLVE, COMPUTER, SCIENCE

Objective
Find and circle all 8 words as quickly as you can!

Once You’re Done
Head to the last page of the activity guide and fill in the row there for the “Word Search” in the table.
Birthday Guests

Overview
A big group of 15 guests is getting together at a restaurant for a birthday. The restaurant has 3 tables that can each seat only 5 people. Below you can find some information about the people who are attending the party.

Aysha, Ben, Carla, Damien, Eric, Fan, Genaro, Hannah, Isaias, Jessica, Kyla, Laila, Max, Nazek, Owen

<table>
<thead>
<tr>
<th>Close Friends (Try to put them together)</th>
<th>In a Fight (Try to keep them apart)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Aysha and Damien</td>
<td>Aysha and Genaro</td>
</tr>
<tr>
<td>Max and Isaias</td>
<td>Ben and Hannah</td>
</tr>
<tr>
<td>Nazek and Laila</td>
<td>Fan and Max</td>
</tr>
<tr>
<td>Owen and Genaro</td>
<td>Damien and Laila</td>
</tr>
<tr>
<td>Ben and Jessica</td>
<td>Isaias and Owen</td>
</tr>
<tr>
<td>Genaro and Eric</td>
<td>Kyla and Jessica</td>
</tr>
</tbody>
</table>

Objective
Find the best possible arrangement of guests at the party. Draw your solution in the space below. To help you can cross out the letters of the names you’ve assigned in the row below.

Once You’re Done
Head to the last page of the activity guide and fill in the row there for the “Birthday Guests” in the table.
Plan a Trip

Overview
You and your friends will be going on a trip. You’ve got the entire school day to travel, and you need to get back to school by the end of the trip, but otherwise how your trip goes it up to you. Plan the best trip that you can!

Explore the Tool
Head to https://www.google.com/maps and search for your school. Look at the different options for finding directions to other locations. Don’t worry about making a plan yet, but make sure you understand what kinds of information are available.

Develop Goals
Talk with your group for a few minutes. What are the most important things about your trip? Do you care what you see? How you get there? How long it takes? What it costs? Write down the goals you’ll use to decide what makes a good plan.

<table>
<thead>
<tr>
<th>Goals</th>
<th>How My Plan Helps Reach this Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Trip should only take one school day</td>
<td></td>
</tr>
<tr>
<td>We want to go to __________</td>
<td></td>
</tr>
<tr>
<td>The time we spend getting there should be less than ______________</td>
<td></td>
</tr>
</tbody>
</table>

Make a Route
Every member of your group should separately start planning your trip. You should select what places you want to go and what activities you want to do along the way. For each goal your group chose, list how your trip helps to reach it in the right column. In the space below record all the stops along your trip.

Stops on My Trip

Things We'll See
**Share Your Route and Get Feedback**
Share the route you developed with your teammates and explain why you think it is the best possible route given the goals you chose. Afterwards, record their feedback and reactions to your route in the space below. Is there anything that needs to change? How could your route improve?

**Improve and Finalize**
Using the feedback from your teammates update your route. In the space below write down the new trip that you and your group agreed on.

**Stops on Our Trip**

**Things We’ll See**

**Once You’re Done**
Head to the last page of the activity guide and fill in the row there for the “Plan a Trip” in the table.
Problem Solving Process Notes

Reflecting on Using the Process
How did you use each step of the problem solving process to solve this problem? Give examples of what each step looked like as you were solving that problem.

<table>
<thead>
<tr>
<th></th>
<th>Define</th>
<th>Prepare</th>
<th>Try</th>
<th>Reflect</th>
</tr>
</thead>
<tbody>
<tr>
<td>Word Search</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Birthday Guests</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Plan a Trip</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The Purpose of Each Step
For each step in the problem solving process write one sentence explaining its purpose. Why is it included in the problem solving process?

Define: ____________________________________________________________
_________________________________________________________________

Prepare: __________________________________________________________
_________________________________________________________________

Try: ______________________________________________________________
_________________________________________________________________

Reflect: __________________________________________________________
_________________________________________________________________

Defining Problems with Questions
Before starting to solve a problem it’s important that you have defined it well. What questions or strategies can you use to better define or understand a problem? Record them in the space below.
