

Name: _____

1A.7 CW: Constructing Triangles

Geometry

____ LT1: I can construct equilateral triangles.

Turn each line segment below into an equilateral triangle with sides equal to the length of the segment.

____ LT2: I can draw 30-60-90 triangles.

Turn each segment below into the base of a 30-60-90 triangle.

____ LT3: I can draw 45-45-90 triangles.

Turn the segment below into the base of a 45-45-90 triangle
