What Can I Use to Stack My Washer and Dryer?

If you're short on space but big on efficiency, stacking your washer and dryer is a smart solution. Whether you're living in a flat, downsizing, or simply want to make your laundry area more functional, a **stacking washer and dryer** setup can free up valuable floor space without compromising convenience. But how can you stack your washer and dryer safely and effectively?

At [Washtower®](#), we've developed the [Slimline series](#) — a range of innovative, stylish, and space-saving **stackable washer dryer** cabinets that not only make your laundry setup more compact but also add stability, storage, and a modern touch to your home.

Why Use a Washer and Dryer Cabinet Instead of a Stacking Kit?

Traditional stacking kits often lack stability and can lead to excessive vibration or tipping — not ideal in a busy household. Our **Washtower® Slimline cabinets** offer:

- **Superior safety** with built-in anti-tip mechanisms
- **Pull-out trays** for easy loading and unloading

- **Moisture-resistant construction**
- **Ventilation grilles** to support airflow
- **Hidden plumbing space** for a cleaner look
- **Wall brackets for added security**

These aren't just cabinets — they're a complete **stackable washer and dryer stackable** upgrade for your laundry room.

Our Best Products for Stacking Your Washer and Dryer

Here's a look at some of our top **stackable washer dryer** cabinets from the [Slimline category](#):

♦ [Slimline 3.0 Washer & Dryer Cabinet](#)

A compact and practical solution, ideal for smaller utility rooms where space is at a premium.

Key features:

- Dimensions: 67x185x65 cm
- Load capacity (top part): 80 kg
- Includes pull-out tray for laundry baskets
- Suitable for washer, dryer, or tabletop fridge/freezer
- Moisture-resistant and vibration-absorbing
- Anti-tip device and wall brackets for added safety
- Open back for easy plumbing access

Despite its small footprint, this **stackable washer dryer** cabinet is built for strength and functionality. The integrated pull-out tray adds ergonomic support, allowing you to rest your laundry basket or clothing while loading and unloading. Its clean design fits seamlessly into modern laundry rooms or even kitchen utility corners. Thanks to the moisture-resistant melamine coating, the cabinet is also a perfect fit for small bathroom spaces.

Best for: Small laundry spaces or flats where every centimetre counts.

♦ [Slimline 3.1 Washer & Dryer Cabinet + Tall Storage](#)

A wider unit that offers additional surface space and enhanced machine support, ideal for heavier or larger appliances.

Key features:

- Dimensions: 112x207x65 cm
- Pull-out tray for ergonomic use
- Suitable for larger machines or added storage
- Soft-close system and ventilation grille
- Adjustable feet and wall mounting brackets
- No back panel for easy access to connections

With its extended width and soft-close tray, this model strikes the perfect balance between form and function. It's especially useful for households that want a bit more flexibility around their **stackable washer dryer** setup or own appliances with slightly larger dimensions. The wide footprint also increases lateral stability, helping to further reduce vibrations.

Best for: Families or households with wide machines and a need for extra side clearance.

♦ [Slimline 3.2 Washer & Dryer Cabinet + Tall Storage](#)

An all-in-one stacking and storage solution that combines practicality with elegant vertical space usage.

Key features:

- Dimensions: 127x207x65 cm
- Includes tall storage cupboard with shelf and clothes rail
- Load capacity (top part): 80 kg
- Additional safety thanks to anti-tip device
- Hidden plumbing area and ventilation grille

- Pull-out tray included for ergonomic handling

This cabinet includes a tall side storage unit — perfect for storing laundry detergents, softeners, baskets, or even an ironing board. The addition of a clothes rail makes it ideal for hanging garments straight out of the dryer, helping prevent creases and saving time. If you prefer a different interior layout in your tall storage cupboard, you can also instead choose for [additional shelving](#), a [vertical layout](#) or a practical [drawer unit insert](#). With the same durability and safe design as our other models, it's an ideal choice for those wanting an all-in-one **stacking washer and dryer** hub.

Best for: Utility rooms that need vertical storage and a sleek, all-in-one stacking solution.

♦ [Slimline 3.3 Washer & Dryer Cabinet + Extended Storage](#)

The ultimate **stackable washer and dryer stackable** system with extended storage and multiple compartments.

Key features:

- Dimensions: 112x233x65 cm
- Full system with shelving and extended storage space
- Pull-out tray for, anti-tip device, soft-close drawers
- Suitable for washer, dryer, or tabletop fridge/freezer
- Adjustable stainless steel feet and wall brackets included
- Ventilation grille and moisture-resistant surfaces

This cabinet offers the most comprehensive laundry system in our Slimline range. With multiple compartments and extended vertical height, you can store cleaning supplies, laundry products, linens, and more — all in one sleek, high-quality unit. This cabinet is perfect for maximizing the available storage space in laundry areas with high ceilings. Despite its size, installation remains simple with a flat back and included mounting accessories.

Best for: Larger households, busy family homes, or those wanting the maximum amount of hidden storage in their **stacking washer and dryer** space.

♦ [Design your own Washtower® cabinet](#)

The perfect option for maximum flexibility for your **stackable washer dryer** setup - select your preferred colour, determine your cabinet size and choose fitting storage cabinets based on your needs.

Key features:

- Flexible cabinet combination
- Full system with shelving and extended storage space
- Pull-out tray, anti-tip device, soft-close drawers
- Suitable for washer, dryer, or tabletop fridge/freezer
- Adjustable stainless steel feet and wall brackets included
- Ventilation grille and moisture-resistant surfaces

This cabinet offers the most comprehensive laundry system in our Slimline range. With multiple compartments and extended vertical height, you can store cleaning supplies, laundry products, linens, and more — all in one sleek, high-quality unit. This cabinet is perfect for maximizing the available storage space in laundry areas with high ceilings. Despite its size, installation remains simple with a flat back and included mounting accessories.

Best for: Larger households, busy family homes, or those wanting the maximum amount of hidden storage in their **stacking washer and dryer** space.

Designed for Safety, Built for Style

All **Washtower® Slimline** cabinets are manufactured using **22mm thick, melamine-coated boards** — ensuring moisture resistance, noise reduction, and long-lasting durability. The **cabinet-within-a-cabinet** construction helps absorb vibration and reinforces structural strength. With their clean white finish, they blend seamlessly into any contemporary interior.

Please note: Our cabinets are delivered as flat-pack kits and do not include washing or drying machines.
