

List card comment replies

```
GET https://api.getguru.com/api/v1/cards/{cardId}/comments/{commentId}/replies
```

Returns all undeleted comment replies within a single card comment accessible to the authenticated user. A maximum of 25 replies will be returned. If more than 25 replies exist, a link to the next page of results will be included in the `Link` header.

Note: The shorter, 8-digit card ID (Ex: 4YCoPbQI) will not work with this endpoint. You will need to use the longer, 32-digit card ID instead. (Ex: 1jHJxmmv-zqcF-veJd-J0m1-xbmBLVbF6KhM)

API call examples

Curl

```
curl --request GET \  
  --url  
  https://api.getguru.com/api/v1/cards/ao9iXXQz-kHsq-fe0a-Bgsq-dnKAcyPlRSzkc/  
  comments/cxFgVhde-sZOr-t8fZ-78lI-jb2DWNkZUxvC/replies \  
  --header 'accept: application/json' \  
  --header 'authorization: INSERT BASIC AUTH KEY'
```

Python

```
import requests  
  
url =  
"https://api.getguru.com/api/v1/cards/ao9iXXQz-kHsq-fe0a-Bgsq-dnKAcyPlRSzkc/comme  
nts/cxFgVhde-sZOr-t8fZ-78lI-jb2DWNkZUxvC/replies"  
  
headers = {  
    "accept": "application/json",  
    "authorization": "INSERT BASIC AUTH KEY"  
}  
  
response = requests.get(url, headers=headers)
```

```
print(response.text)
```

JavaScript

```
const options = {
  method: 'GET',
  headers: {
    accept: 'application/json',
    authorization: 'INSERT BASIC AUTH KEY'
  }
};

fetch('https://api.getguru.com/api/v1/cards/ao9iXXQz-kHsq-fe0a-Bgsq-dnKAcyPlRSzkc
/comments/cxFgVhde-sZ0r-t8fZ-78lI-jb2DWNkZUxvC/replies', options)
  .then(response => response.json())
  .then(response => console.log(response))
  .catch(err => console.error(err));
```
