

We all have items that are special to us for different reasons. Write about an item that is special to you.
What career would you like to have and why?

What's my favorite place you ask? That's easy! The dock at my Grandma and Grandpa's house. You can fish, think, or grab a chair and your family and watch the sunset. To most people, it's just a plain old dock. To me, it's the opposite.

Although you may get splinters just sitting down and dangling your feet in the water to me is like paradise. The moment the water touches your toes you'll never want to leave. To the point where the rainbow like sunset comes into sight, it's like an alarm clock. Fish start jumping and manatees backs are appearing directly above the water's surface. I feel so blessed that I can experience such a delightful sight!

An activity I very much enjoy doing at the dock is net fishing. After you catch the fish in the net, you put them in a bucket of sea water and watch them swim around. Their sparkly silver scales shine in the sunlight which makes it even more interesting to watch.

The best time of the year to be on the dock is the 4th of July. The bright colored fireworks have a mirror affect on the water. It looks like flashes of color dancing in all directions, taking all the dull color somewhere else. As the loud claps of more fireworks are in action, no fish are in sight. Just the color, sounds, and peacefulness is all you think about. It is truly wonderful.

The worst part is having to leave. It's like the water knows you're leaving and all of a sudden fish start jumping and seagulls glide over the water as a good bye show. That's what puts a smile on my face.

The best part is that you know you can come back tomorrow!

"Now I am going to get a tree house!"

Thanks dad for getting such a huge present for my birthday. A few weeks later my own tree house was ready. Before it was ready I imagined it peaceful, relaxing, and also full of adventures. When I got out of school I went straight to the tree house to do my homework. For the first time I didn't struggle or feel annoyed by my little brother!

The tree house was brown with ladders stuck to the trunk. It also had pictures that I drew for it to look homey. There were pillows, two chairs, and one tiny table. It was crowded with supplies! Another thing that it had was some plants that my grandpa gave me to decorate the tree house. "This place is amazing," I thought to my self. From the point of view of the tree house I could see grass, buildings, the park and other places.

When I am bored I go to the tree house to draw pictures or just read a good book. I also hear music, do home work, or just sit there to think about things. When my brother wants to climb I see him like an ant from all the way to the top of the tree. Sometimes I just feel so happy that I think my heart is going to pop out with excitement and joy. "This is a really special place for me" I thought.

I never thought that a simple tree house would mean a lot to me. Spending time at the tree house means an amazing special time to me.

Magic Time Machine

I have a lot of fun at a lot of places, but my favorite is The Magic Time Machine. I always have a blast there. There is a man that can draw the best cartoon people. They look amazing and I'm not just saying that because I have two of his pictures. Upstairs there is an arcade filled with all sorts of games like Pac-man and air hockey. There is also a jail that you can write your name on the wall, just don't sit down because the seats are not soft or comfortable. The fun isn't over yet. Did you know that your waitstaff is dressed like characters from games and movies? Some like Ivy and Batman, Mario and Luigi, Cinderella and the Tooth Fairy, and Indiana Jones and Jack Sparrow. The best part is that there are more people and you can get autographs from them. The place is also decorated in so many places I doubt the manager knows all of them! There is a Crayola Crayon Box, Tiki hut, Winter wonderland, Presidents room, and an Old ship. A few times a week there is a Magic Show that is put on upstairs. The food is amazing, but the potion drink bubbles and fizzies and smokes like crazy. Kids can have it because it's sprite and juice. I recommend going there next time when it's dinner out. There will be so much fun and excitement. It is a fun filled blast for everyone to enjoy!

Do you have a special place that you like to spend time at? Well I sure do. It's my best friend Olivia's house. There's tons of things to do.

If we are bored, we usually talk about things like school, stories we hear on the news, and stuff like that.

One of the best places to do that is in Olivia's room. We usually sit on her bed, lean back on her comfy pillows, and start up a conversation. That is, we do that if we're tired or don't have a lot of energy.

If we do have energy, the trampolene is the place to go. Quick as a flash, we're out the door and into the back yard. If Olivia's mom lets us, we get the hose and have a water fight! After a while, we are soaking wet and laughing our hearts out.

Another one of our favorite things to do is shoot hoops in the front yard. Olivia plays on a basketball team, so she teaches me tips and tricks on how to be a basketball star. All that hard work definitely has payed off. Now, I'm almost as good as her!

As you can see, Olivia and I always have something to do at her house. We have so much fun together! That is why I love to spend time at her awesome house.
