

The successor of a legend

The all-new unmatched rally legend Subaru Impreza WRX is back, more powerful and reliable than ever!

There are a lot of reasons to love the WRX!

It is equipped with a 2.4-liter rumbling boxer engine that puts down 271 horsepower to all of the wheels using the mighty Subaru AWD System. Way more power than a Volkswagen GTI or a Honda Civic SI!

Race-proven Subaru engineering means you'll have miles and miles of fine-tuned satisfaction.

95% of the WRX Subarus sold in the last 10 years are still on the road today. The Civic or GTI can't match that either.

There are 4 Trims for the new WRX including:

- Base
- Premium
- Limited
- GT
