Our Mission

Since 1974, Julie's Family Learning Program has been dedicated to empowering mothers to recognize their strengths and utilize their know-how to stabilize and transform their family life. In 2019, Julie's expanded its mission to all underserved learners, 16 years and older, who seek flexible opportunities to attain the educational credentials and workplace skills crucial to meeting their life goals.

Family Development Program

Free, in-person program for moms and non-binary parents working to earn their high school equivalency. Life skills classes and supportive services included. In person Monday to Thursday, 9:30 am to 2:00 pm. Many Family Development students bring their children to our Children's Services program.

Adult Basic Education (ABE) Program

Free, flexible classes (morning, afternoon, or evening) for adults of any gender, both parents and non-parents, ages 16+. This part-time program helps people earn their high school degree and get better jobs.

Adult Tutor Volunteer Role

Tutors work one-on-one or in small groups with adult learners on their basic reading and writing, tech and/or math skills. The majority of learners are between a 3rd and 6th grade reading level. Classroom teachers and staff support volunteers with materials and activities for tutoring.

No teaching experience or academic expertise is necessary but an enthusiasm for connecting with learners and the ability to motivate and engage students is essential. Adult learners attend classes Monday-Thursday 9:30AM-2PM or 6-8PM and tutoring occurs on-site during those hours. Tutors usually serve 2 hours per week.

To learn more about our volunteer application process, please contact Alex Babbist, Family Development Program Coordinator, ababbist@juliesfamily.org and fill out [our volunteer application form](#).
