

Part 1. Make your Week 1 map perfect and print it.

Part 2. What are the main differences and similarities between a shapefile and a feature class? A good start here would be [File Geodatabases, Feature Classes, and Shapefiles](#) (GARP 0244 28 October 2014).

- Remember: a feature class is part of a file geodatabase.
- Use Google, [ArcGIS Resources](#), and [ArcGIS Help](#) to find the information.
- Optional: Include a figure or graphic as an illustration.

Part 3. Get started with the project! For example, export your attribute table to MS Excel. Google: export attribute table to excel arcgis and consult [today's cookbook](#). Set-up your folders and map, etc.

Deliverables: A professional typed and printed report due on Friday 9/11/2015 at 08:15. Consider this a writing sample that you could show to a potential employer during a job interview to demonstrate your competence and professionalism.
