

Shiba Harmony

The decentralised meme-based ecosystem on Harmony.

Like Shiba Inu we're 'spirited, good natured and alert' and we reward you for holding your tokens! On Harmony we're also able to offer lightning-fast transactions and extremely low gas fees. And we're building a DEX for all meme tokens to call home. So, what are you waiting for? Be part of Shiba Harmony!

Memeswap

Memeswap is the DEX for meme tokens on harmony and beyond. It's supported by four main tokens:

\$SHIBAHARMONY

The deflationary foundation of the Shiba Harmony ecosystem. Play games, trade NFTs, buy discounted tokens on the DEX and earn rewards for HODLING!

\$MEMESWAP

The cornerstone of the DEX, buy MEMESWAP and begin trading and farming. The farms will have generous APRS but not so high as to create crash and burn cycles.

\$BOHNE

When you farm most of the emissions will happen through bonding via the BOHNE protocol. BOHNE will be part of an autonomous ecosystem and treasury.

\$MLEND

A borrow and lending platform with a twist - the ecosystem will own its liquidity. This will reduce sell-pressure and provide income to buy back tokens and provide to the Bohne treasury.
