The page has a dark theme with the Discord logo at the top. The main content area is a light gray box with the heading 'Welcome back!' and the subtext 'We're so excited to see you again!'. Important Note: Sometimes it can take a couple of hours after clicking connect and logging in, for our private channel to load on your discord - so please be patient

Especially if it's the first of the month..

Patreon is infamous for having technical issues around the first of a new month, because that is around the same time when their system processes millions of payments. So if its currently the 1st or 2nd of a new month, please be aware that it will likely take much longer than usual for the Patreon Bot to grant you access to our Private Discord Server. So if you followed all of the instructions above and the discord server is still not popping up for you, no worries just give it 6 - 12 hours and then it usually 'magically' pops up out of nowhere!

Troubleshooting: If its been 12+ hours and our channel still hasn't popped up for you, please make sure that you are using the same email address for discord that you are using on your Patreon account.

Once both emails match, then simply go back to the Membership's tab on Patreon (as demonstrated on Step 4) and then click Disconnect and once the button changes to say Connect, click Connect again
