

It's time to step up your game and get some more sales...

Hi [business name]

I have been going through your social media and what you offer, and a thought started expanding in my mind, reminding me about the **hundreds of thousands of businesses** and even major companies using a basic cheat code to acquire thousands per week across their market space.

This cheat code consists of two types of **ads**...

Paid ads or unpaid ads

Paid ads: are ads that forcefully push themselves into your recommended page or when your watching some content

Unpaid ads: are ads that organically adapt and grow through the algorithm, publishing videos that **promote your product/service**

This is very, very popular on Tiktok and is making thousands of businesses gain *hundreds of paying customers per day*.

That's where i come in, my name is Ryan Ashqar, I am a digital marketer consultant, which is helping businesses get to their desired spot by solving their problems and giving solutions, and suggestions.

I have analysed the big businesses in the industry and know **how, why and what** they did to find success, and make it to the top, and all of them were in the same place you're in.

You can get attention in many ways but monetizing it can be difficult.

I am here to help you become more **seen and valued as a feared player** in the market you have chosen.

And a way to do that is to have the utmost value...

"How do I get value"

- .You must have a connection to the reader or customer emotionally.
- .You need to be different, if not, your the average, no one wants the average
- .Persuasion
- .Trust

And there's more but...

If you want to discuss in detail, and would like to get to know me, and what I bring to the table, give me a response and we can decide on when you can call.

Thankyou for reading

Sincerely: Ryan Ashqar
