

Hello Black Cat, I have found ways to boost your business

First of all I am unbelievably grateful for the job you are doing, I have a pet myself and I know how hard it is to keep it well-groomed and healthy.

So I decided to help you with your website to come up with a greater number of other pet owners, and increase your value.

There are some things that can lead to lower booking sales:

- I saw that your services are mostly copy pasted, that's not good. Someone will think that you don't care **BUT YOU DO**.
- You need to show potential customers that you care about this website as much as the pets you are taking care of. This builds amazing trust inside customers.
- Don't worry, I have found ways to make it look professional and trustworthy. You just need to contact me.

Second, I saw question in FAQ that can be changed into service:

What if my pet has fleas?

^

You will be charged \$15 for flea shampoo. The chemicals in flea shampoo can cause reactions in cats, therefore I will not accept cats with fleas.

I saw you have Additional services such as brushing, and I think flea removal could count as one of them.

That's not everything I can offer you, I know a lot more ideas/improvements that can be used for your website to look more professional. I can provide that after the discovery project.

Don't wait for the game changer, improve your website now!
