## Continue your journey as a Changemaker with the following groups

### Elders Climate Action

This organization includes over 26,000 older adults in the United States who are taking action on issues related to climate change. ECA is a close partner with CTC and together we have planned an intergenerational climate action month. Intergenerational work can amplify our work as changemakers. If you or someone you know is an older adult who wants to get involved in climate solutions, we encourage you to check out the following opportunities to get involved:

- [20 ways to take action with ECA](#)

### The Better Food Foundation

This organization works to transform the institutional and cultural environments that both guide food choices and shape attitudes about food, leading to large scale and lasting improvements to our food system. By emphasizing fresh fruits and vegetables, their DefaultVeg program has helped to lower carbon emissions at over 500 institutions including New York City Health + Hospitals, Harvard's Office of Sustainability, Sodexo College Dining Services, and dozens of conferences, catered events, offices and businesses concerned about sustainability, health and inclusivity in their dining.

## Climate Action Now

This organization makes climate action easy! Download their app and take action in minutes. Through the easy to use app, you earn points by signing letters, petitions and reading articles. As your points accumulate, the folks at Climate Action Now will plan tree(s) on your behalf. Make taking action a part of your daily routine and you will make a strong contribution to creating a brighter and more sustainable future for all.

We have found that this app can be an excellent thing for folks to get involved with who don't know where to start. Take this a step further by telling your friends and family to download the app now!
