

# Anatomy & Physiology 1-2: College

---

**Grade Levels:** 12th

**Prerequisites:** None

**Course Numbers:** 17131, 17132

**Credit Type:** Elective

**Course Description:**

This course is part of the medical career program. It is a challenging upper division Science elective covering basic human anatomy, physiology and embryology. Students will study each human body system from the cellular to system level and interaction between these systems. It is a rigorous course intended for students who enjoy science and will be valuable for those interested in medical or health related careers such as medicine, veterinary science, dentistry, nursing, physical therapy, para-medicine, or athletic training. A major portion of this course will be devoted to lab work, including dissection of preserved materials. Lab skills will be developed. Honors credit is available.
