

Learning experience and season	
Season: Summer	
CfE Level Level: Early	
Curricular Area- Numeracy	
Experiences and Outcomes and associated benchmarks	
E&Os  <i>I have explored numbers, understanding that they represent quantities, and I can use them to count, create sequences and describe order.</i> <b>MNU 0-02a</b>	BMs  <i>Uses one-to-one correspondence to count a given number of objects to 20.</i>
Overview of learning experience	
Taking your class outside to show quantities of numbers.	
Outline of learning	
LI/SC  WALT represent a number with a quantity I can use a number card to make the given number using loose parts	Resources  Whatever you find in the playground
Description of learning experience and assessment opportunities  Using number cards (give the number, dot pattern and written name) as the children to find that number in twigs/stones/flowers/leaves  Can be used in class or ask children for home learning- what they find in garden/local area.	
Consideration of risk	
Unsafe items lying on the ground. Children to risk assess area before beginning.	
Taking it further – what else could you do?	
Link to literacy- Summer Walk by Virginia Brimhall Shaw <a href="https://www.youtube.com/watch?v=nWOK0mQS7og">https://www.youtube.com/watch?v=nWOK0mQS7og</a>  Find a number of mini beasts/butterflies etc and take a photo of them.
