

Major, Minor, Certificate (Programs) Standardization Recommendations

The fields within the course list table allow editors to assign specific information to individual courses.

Course Code	Course Title	Credit Hours
HIST 101	History of Western Civilization	3
HIST 102	United States History (See Instructor)	3
HIST 103	The 20th Century	3
HIST 104 / 113	World History	3
HIST 105	European History *	3
HIST 106	Asian History	3
HIST 107	African American History	3
HIST 108	Technology and Civilization	3
HIST 109	History of Science	3
Total		30

- Comment** - A comment will be displayed in parentheses after the course title.
- Sequence** - Sequence will display two courses with an ampersand (&) indicating that these two courses must be taken in conjunction with each other.
- Cross Reference** - A cross reference course describes a course that is the same course content offered under different course numbers.
 - For instance, if credit is given at both the undergraduate and graduate level.
 - Another example is a course that is offered by different departments for credit.
- Hours** - The hours field automatically is populated with the credit hours assigned to the course in WINS.
- Or Class** - This will display two courses with the word "or" indicating that either course may be taken to meet the requirement.
- Footnote** - Only the footnote symbol is entered in the course list and then add a [Footnote table](#) after the course list in the Page Body.
- Indent** - The item will be indented to the right, the credit hours will be suppressed from displaying, and credit hours will be suppressed from adding to your Total Credits.
 - For example, a Comment Entry of "Select one of the following:" may proceed a list of indented courses. This allows users to see all of the options, without adding the credit hours of each course to the Total Credits.
- Area Header** - The item will be styled as a header within the table.
 - This option typically is used to logically group courses within a Course List.
 - For example, grouping "Elective Courses" separately from "Required Courses".

Note: Multiple course codes may be added in the Sequence, Cross Reference or Or Class fields, separated by a comma. To include an ampersand (&) in an Or Class, include the ampersand. For instance, to display ACCOUNT 101 OR ACCOUNT 102 & ACCOUNT 103, put ACCOUNT 102 & ACCOUNT 103 in the Or field of the ACCOUNT 101 course.

Initial Title:

1. Bold title of “Major/Minor/Certificate Requirement(s): X units”

Certificate Requirements - 12 units
--

Additional Information:

The CIM program form is an overview of required coursework and will be reflected as such on the AAR and the course catalog. The [4-year plan](#) is the appropriate place to organize coursework based on timeline, requisites, and graduation path. If the 4-year plan is no longer in sync with the approved curriculum, please coordinate with your college and update appropriately.
