

Want More Energy, Less Pain, Better Sleep & Blood Circulation, and/or to Feel More Relaxed???

The Biomat is a FDA-registered medical device that's a 1-inch thick "pad" made in Seoul, Korea. It features *calming amethyst crystal*, *refreshing negative-ions*, and *soothing far-infrared light*.

FDA-approved Benefits:

- * Temporary relief of:
 - minor muscle pain
 - minor joint pain & stiffness
 - joint pain associated with arthritis
 - muscle spasm / minor sprains
 - minor strains & muscular back pain
- * Relaxation of muscles
- * Temporary increase of blood circulation

HOW TO FEEL BETTER AND RECONDITION

Feel rejuvenated and renewed, restored in both body and mind

Body temperature and metabolic activity

Mitochondria is produced through body heat, and Heat Shock Protein by infrared Ray's heat and vibration. The Far Infrared Ray is both an electromagnetic wave and an energy wave. Long frequency waves are considered to be beneficial to our body. They replicate mitochondrial activities.

Images show poor circulation before and after 14 days of Biomat usage. Note the increase in circulation.

When the body is warm, metabolism rises, increasing blood circulation. The circulation of the blood can be likened to the work of a fleet of trucks, some that bring in fresh food and others that take away the garbage. The heat from internal organs provides the energy, the heat provides the delivery.

Comparison of Normal Heat and Biomat Infrared Rays

After using a normal heating pad for 10 minutes

Only the outer surface of the skin is affected in this area

After 5 minutes using Far Infrared Rays

Skin is penetrated 80 times more deeply than with other kinds of heat

There are two kinds of heating applications here. One is the simple application of any warming technique imaginable, while the other is Far Infrared Rays that cause the molecules inside the mitochondria of the cell to resonate and be activated. One of the main focuses of attention during the 21st century will be on these methods of heating the body by the Far Infrared Ray.

HEALTH INSURANCE CLAIM INFORMATION

Courtesy of Linktr.ee/Biomat by Bio-mats.com/danny

To share this via Google Drive, use: tinyurl.com/BiomatPIPinfo

Types of insurance claims that are being paid:

- a. PIP
- b. Workman's Comp
- c. Flexible Medical

NPI Number: 1437589793

510K Number: K072534

HCPCS Code: E0221

FDA Medical Device Est. Number: 2954299

Non-Participating Provider Number: 22852-8

Insurance Steps:

1. Have your doctor write a prescription recommending one of our products. Please specify item name and size. If your doctor is not aware of far infrared and negative ion technology, provide Richway Biomat literature.
2. Complete a Richway Order Form with the patient's name as the applicant. In large letters across the top of the form, write "Medical Receipt Requested". Put your name as the sponsor and leave the payment information on the form blank.
3. Fax or email the form to Richway, attention Doreen. If faxed, follow up with a phone call to ensure that the fax has been received.
4. The patient will receive a Medical Receipt from Richway then submits the **Medical Receipt, Doctor's Prescription, and Health Insurance Claim Forms** to their insurance company. Keep copies of all documents.
5. It is the patient's responsibility to follow up with their insurance company regarding the approval status.
6. If approved, the insurance company will send a check payable to Richway & Fuji Bio Inc. If the patient receives the check payable to both themselves and Richway & Fuji Bio Inc., they will endorse the check and forward it to Richway & Fuji Bio Inc. The check must reference the RI Number from the Richway Order Form. The RI Number is located on the top, right hand corner of the order form.
7. After Richway receives the check, the order will be processed and products will be shipped to the patient.

Please Note:

Claims being paid all depend on the adjuster. The same adjuster with the same insurance may deny the claim for one client but give it to another. Adjusters for the same company may or may not deny the claims for the clients that they are specifically working with. Everything is based on the individual claim and the adjusters have ALL the control. An adjuster may pay a certain amount for the claim one date of service and pay a different amount the next date of service. Very often they are not consistent. That is why it is so important that when sending in claims, to send in as much information as possible to document the need.

Biomat® Evolution

1997
The very first Bio-mat®
Type: Heating element
Size: Queen
Features: The user had to choose either negative ion or infrared setting. Could not use both at the same time.

1998
New Bio-mat®
Type: Jade and Bio Clay or all Bio Clay
Size: Single and Queen
Features: Neg ion, infrared, and EMF interception. Leopard print border.
Design notes: Richway created the technology to operate neg ion and IR function together. Left and right dual controller for Queen mat added.

2000
Bio-mat® 2000mx
Type: Jade and Bio Clay
Size: Single and Queen
Features: Neg ion, infrared, and EMF reverse currency technology. Diamond pattern border.
Design notes: Richway incorporates reverse currency technology based on Maxwell's right hand rule.

2000
Bio-mat® 2000mx Amethyst
Type: Amethyst crystal
Size: Queen
Features: Neg ion, infrared, and EMF reverse currency technology.
Design notes: Richway releases first natural amethyst crystal mat.

2002
Bio-mat® 2002mx
Type: Amethyst and Tourmaline
Size: Pillow, Mini and Professional (test run)
Features: Neg ion, infrared, and EMF reverse currency function.
Design notes: Tourmaline is processed into tiny beads and filled into the channels.

2002
Bio-mat® 2002mx
Type: Jade
Size: Single
Features: Neg ion, infrared, and EMF reverse currency function.

2002
Bio-mat® 2002mx
Type: Jade and Tourmaline
Size: Queen
Features: Neg ion, infrared, and EMF reverse currency function.

2002
Bio-mat® 2002mx
Type: Amethyst crystal
Size: Single, Queen and Pro (test run)
Features: Neg ion, infrared, and EMF reverse currency function.
Design notes: Consumer demand is strong for an all amethyst mat. Richway releases new sizes and tests Professional size.

2004
Bio-mat® 2005mx
Type: Amethyst
Size: Pillow, Mini, Single, Queen, and Pro
Features: Neg ion, infrared, and EMF reverse currency function.
Design notes: Dr. Hideo's design is added to the Biomat®. The Professional size completes the testing phase and is permanently added to the Biomat® family.

2005
Bio-mat® 3000mx
Type: Amethyst
Size: Biobelt, Pillow, Mini, Single, Pro, Queen, and King
Features: Neg ion, infrared, and EMF reverse currency technology.
Design notes: Controller CPU upgraded for enhanced performance.

2012
Biomat® 7000mx
Type: Amethyst
Size: Biobelt, Pillow, Mini, Single, Pro, Queen, and King
Features: Neg ion, infrared, and EMF reverse currency function.
Design notes: Nano Copper, Quantum Energy, TOCA, and Copper fabric added to the Biomat®.

2016
Orgone Biomat™
Type: Amethyst, TOCA, Nano Copper
Size: Queen and King
Features: Neg ion, infrared, and EMF reverse currency function.
Design notes: All the benefits of the Biomat® incorporated into a lightweight, soft and comfortable bedding product.

Timeline

1967 - NASA invented electric infrared technology using alumina and silica.

1982 - NASA releases patent on electric infrared technology.

1990 - Japanese researchers make a product based on NASA patent. They use silica, alumina, and carbon fiber to produce infrared heat.

People notice the difference and prefer infrared generated by NASA technology than heat from heating pad coil.

1997 - Richway enters the marketplace using the same technology.

1998 - Richway needs safety certificate to import the Biomat®. UL and CSA does not recognise NASA technology for heating mattresses. To obtain a heating certificate, Richway adds chrome to the Biomat®.

1998 - Jade and Bio Clay are added to the Biomat® to produce infrared rays.

2000 - Effective EMF protection based on Maxwell's right hand rule is developed and incorporated into the Biomat®.

2000 - Amethyst is found to be better than jade. First all amethyst mats are produced.

2002 - Introduced the Professional Biomat® for massage therapists.

2002 - Some people do not like the experience of amethyst infrared. Salt is added to the amethyst to soften its effect.

2005 - Special Jade and germanium mats are produced.

2005 - Amethyst infrared is perfected and Biomat® family is converted to natural amethyst.

2008 - The 2002mx is granted a \$10(k) by the USFDA.

2011 - Special tourmaline fabric is developed which produces the highest amount of negative ions in a fabric.

2011 - Nano copper and copper fabric are combined to create orgone layer.

2012 - New fabrics are added to the Biomat®.

2016 - The next chapter begins. The introduction of the Orgone Biomat®.

Richway & Fuji Bio, Inc. 1314 South King Street suite 520, Honolulu, HI. 96814 Tel: 808-589-2800 Toll-free: 855-338-6410 Fax: 808-597-1651 www.richwayandfujibio.com

and has been issued numerous safety & health certifications (see the bottom of the 2 images below and even more at richwayandfujibio.com/aboutus/#certification) by various countries & entities,

Comparison of Normal Heat and Biomat Far Infrared Rays

After using a conventional heating pad for 10 minutes
Only the outer surface of the skin is affected in this area

After 5 minutes of using far infrared rays
Far infrared rays can penetrate the skin much deeper compared to other types of heat

There are two types of heating applications here. One is the simple application of a conventional heating pad, while the other is the result of far infrared rays. One of the main focuses of attention during the 21st century will be on these methods of heating the body using far infrared rays.

✓ What is EMF?

EMF (Electromagnetic Fields) is a term used to describe the invisible electric and magnetic fields radiating away from man-made alternating electrical current. EMF radiates from all electrical appliances in the home, office or factory, in cars, trucks, buses and overhead tram and train lines.

All Biomat products have been tested by TÜV SÜD for Electromagnetic Fields and were found to be in compliance with IEC 62233 (ed.1) and EN 62233:2008.

These images show circulation before and after 14 days of Biomat usage. Note the increase in circulation.

According to the American Heart Association, the circulatory system is responsible for the delivery of oxygen-rich blood and the removal of wastes. In Dr. Inoue and Dr. Kabaya's paper entitled *Biological Activities Caused by Far-Infrared Radiation*, far infrared rays have been found to have a blood circulation-enhancing effect in human skin and eventually induces an increase in temperature of the body tissues.

NAME OF PRINCIPAL INVESTIGATOR: DR.OYEBOLA O.FOLAJU

TITLE STUDY:

THERMOTHERAPY (BIOMAT) AS AN ADJUNCT TREATMENT TO IMPROVE
THE QUALITY OF LIFE IN PATIENTS SUFFERING FROM CHRONIC LIFE-
THREATENING DISEASE CONDITIONS.

RESEARCH LOCATION:

FEDERAL MEDICAL CENTRE, ABEOKUTA

PROTOCOL NUMBER:

FMCA/470/HREC/11/2016

NREC REG. NUMBER:

NREC/08/04/2010

FMCA: FEDERAL WIDE ASSURANCE: U.S/REG NO: FWA/00018660/02/28/2017

NOTIFICATION OF FULL MEMBER APPROVAL OF RESEARCH PROTOCOL

This is to inform you that the Federal Medical Centre, Abeokuta Health Research Ethics Committee (HREC) at its sitting on 19th May, 2016 decided to give full membership approval to your research proposal, after necessary reviews and corrections, under the regulations guiding experiments in human subjects.

This approval is for a period of one year from 19th July, 2016 to 18th July, 2017. If there is delay in starting this research, please inform the HREC so that dates of approval can be adjusted accordingly. Note that no activity related to this research may be conducted outside these dates. No changes are permitted in the research without prior approval by HREC.

All forms and questionnaires used in this study must carry the HREC assigned number and the duration of HREC approval.

You are to note further that, the National Code of Health Research Ethics requires you to comply with all institutional guidelines, rules and regulation, to follow trends of the code. Please ensure that any adverse effect from your study is promptly reported to the HREC Federal Medical Centre, Abeokuta.

You are expected to submit a progress report to this Committee every three (3) months from the date of approval. The HREC reserves the right to conduct compliance visits on your research sites without previous notification.

Thank you.

Rasaki
Dr. A. I. Rasaki

Chairman, Hospital Research Ethics Committee

as well as has been given awards, & recognition as listed at richwayandfujibio.com/aboutus/#accolades and below:

Richway

Life with a Biomat

Pope Benedict XVI's blessing for Richway's contribution to health care enhancement.

"The Holy Father Benedict XVI cordially imparts the Apostolic Blessing to Dr. Jeanna Chun Kim, Richway International, Inc., for your receiving recognition by the United Nations, for your leadership in promoting Health Care Enhancement and invokes an abundance of heavenly graces and the continued protection of the Blessed Virgin Mary."

May 6, 2009, The Vatican

The United Nations Association Citation of Special Merit

Dr. Jeanna Chun Kim, C.E.O.
 Richway International, Inc.

"In recognition of her outstanding contributions, dedication in promoting people's health. She has also demonstrated strong leadership and commitments to Primary Health Care Enhancement for the benefit of the needy people and the society at large. In witness thereof in recognition whereof, I have hereunto put my hand and affixed the Official Seal of the United Nations Association, on the 16th of June, 2009, in Jakarta, Indonesia."

Prof. Kernal Roemawi MD, Ph.D.

Recognition from Prince Fushimi of the Japanese Cultural Agency

Richway Japan received an award from Prince Fushimi of the Japanese Cultural Agency for its contribution to promoting health care for the Japanese people.

Richway CEO Jeanna Kim and the Queen of Malaysia

The Malaysian Royal Family uses the Biomat.

Richway's invitation by the U.S. White House

In 2006, Richway was recognized as an excellent company by the President of the United States and the founder was invited to the White House for a dinner party hosted by President Bush.

CONTROLLER FEATURES

SOFT TOUCH POWER SWITCH AND TEMPERATURE/TIMER CONTROL

The Biomat 7000mx's control system has many useful functions for setting the temperature, timer, and it even has the most advanced I.C. chip to reduce electromagnetic waves.

Alarm Light

This light will appear if there is any malfunction. If so, check connections to ensure they are secure. Contact the dealer if you are experiencing any issues.

Temperature Indicator (Celsius)

Temperature Up

Temperature Down

Soft Touch Power Switch

F.I.R. Indicator (Far Infrared Ray)

This light indicates when far infrared rays are electrically produced. This light will come on when you first set the Biomat's temperature. Once the Biomat has reached the set temperature, this light will turn off and the E.D.N.I. light will begin to flash.

E.M.F. Interception Light

This lights up to indicate the active reduction of harmful electromagnetic waves.

Awarded Best Medical Device in 2010

Grand prize in the medical device field by the Royal Swedish Academy of Sciences

by helping people, healthcare professionals, and healers/bodyworkers of all kinds to support their and their clients'/patients' health & wellness goals that features calming amethyst crystals

AMETHYST

Birthstone for February and
the Zodiac sign Pisces

Characteristics

Hardness 7

Color- light to dark purple

Crystal structure- hexagonal

Chemical formula- SiO₂ (Sulfur and Oxygen)

Biomat® Facts

Amethyst size- 3mm-5mm

Amethyst weight- 7.5kg/ 16.53 lbs. – 17.5kg/ 38.58lbs.

Biomat® amethyst comes from China, Brazil and India.

Amethyst Mining Sites

Famous Figures

- The British Crown Jewels contain amethyst.
- Amethyst was the favorite gemstone of Catherine the Great - a Russian empress.
- Egyptian pharaoh, Cleopatra, possessed an amethyst ring.
- Tibetans consider amethyst sacred to Buddha and make prayer beads from it.

Mythical Properties

Amethyst is believed to:

- Repel negative energy and attract positive energy
- Bring calmness, inner peace and heighten natural intuition
- Known as the sobriety stone

Timeline

Ancient Egyptians made intaglio engraved gems out of amethyst.

Ancient Greeks wore amethyst and made drinking vessels from it to prevent intoxication.

In England, beads of amethyst were found in Anglo-Saxon grave.

Medieval European soldiers wore amethyst amulets as protection in battle.

The French poet Remy Belleau (1528-1577) invented a myth in which Bacchus, the god of intoxication, of wine, and grapes was pursuing a maiden named Amethyste, who refused his affections.

An amethyst Bust of Roman Emperor Trajan was taken from Berlin by Napoleon to France.

A large geode from southern Brazil was presented at a 1902 exhibition in Düsseldorf, Germany.

, soothing far-infrared light,

infrared therapy
do for you?**

ACTIVATES WATER MOLECULES IN THE BODY

THE ACTIVE MOLECULES OF WATER HELPS TO IMPROVE BLOOD CIRCULATION UP TO THE MICRO CAPILLARY LEVELS IN THE BODY.

IMPROVED BLOOD CIRCULATION HELPS TO IMPROVE THE METABOLISM

INCREASED METABOLIC EFFICIENCY HELPS TO GET RID OF BODY WASTES THROUGH EXCRETION, MORE EFFECTIVELY

HELPS TO DECREASE ACIDITY IN THE BLOOD

HELPS TO IMPROVE THE BLOOD'S OXYGEN CONTENT

HELPS TO REVITALISE THE BODY

and refreshing negative-ions (aka “vitamins of the air”)

PARTIAL LIST OF NON-FDA-APPROVED BENEFITS AND HEALTH CONDITIONS THAT GOT SOME OR TOTAL RELIEF AS REPORTED BY BIOMAT USERS:

*some anxiety relief

- *Promotes restful sleep for those with occasional sleeplessness
- *fall asleep faster and wake up feeling more refreshed
- *speeds-up your metabolism
- *activate your parasympathetic nervous system instead of being stuck in “flight-or-flight”
- * balance your hormones by sweating-out toxins stored in fatty tissue
- *Lyme disease
- *Heals soft tissue
- *Relieves stress
- *Improves mood
- *Supports core body temperature
- *Promotes relaxation
- *Induce an artificial fever
- *multiple sclerosis (MS)

[IMPORTANT NOTE: To view a list of **contraindications** (those that canNOT safely use the Biomat or at higher temperature settings), visit any of the below or see the 2-page image below:

<https://tinyurl.com/ContraindicationsRichWay>

RICHWAY & FUJI BIO INC.

1314 South King Street Suite 520, Honolulu, HI 96814

Tel: (808) 589-2800 Fax: (808) 597-1651

www.richwayandfujibio.com

customerservice@richwayusa.com

Contraindications

It is always recommended to consult with your physician before the use of the Biomat.

***Remember to stay hydrated while using the Biomat.

Contraindications:

Organ Transplants -

Recipients who have had any type of organ transplant (Kidney, Heart, Liver, etc) **should not** use the Biomat. After an organ transplant, patients will need to take immunosuppressant (anti-rejection) drugs to help prevent their immune system from attacking, or rejecting, the new organ. The use of the Biomat's Far Infrared Rays increases immune system function, which will tell your body to attack the new organ.

External Pacemaker –

We recommend anyone who uses an external pacemaker that they **should not** use the Biomat.

Renal or Kidney Failure –

We recommend anyone who has Renal or Kidney failure that they **should not** use the Biomat. The use of the Biomat increases circulation of the blood, which may increase the blood flow to the kidneys causing stress.

Use with Caution:

Heat Sensitive MS –

We recommend anyone with Heat Sensitive MS to use the Biomat with **no heat and negative ions only**. Anyone with other types of MS can use the Biomat at any setting.

Radiation Therapy/Chemotherapy –

We recommend anyone that has currently received radiation treatments or chemotherapy to use the Biomat with **negative ions only**. **Consult your physician** before using the Biomat with any heat settings.

Brain Tumor –

We recommend anyone with a brain tumor to use the Biomat on **low heat only** (95F-113F).

Bypass Surgery –

We recommend anyone who has undergone bypass surgery to use the Biomat on **low heat only** (95F-113F). The use of the Biomat increases circulation of the blood, which can cause normal blood vessels to expand. Some people who have gone through bypass surgery, experience discomfort since their blood vessels can't expand.

Internal Pacemaker–

We recommend anyone who uses a pacemaker to use the Biomat on **low heat only** (95F-113F). The use of the Biomat increases circulation of the blood, which can cause an increase in heart beat. Some people who use a pacemaker, experience discomfort since their heart beat is being controlled.

Diabetics –

We recommend anyone with Diabetes to use the Biomat on **low heat only** (95F-113F). Diabetics' skin is weak, which can cause low heat burn from the use of the Biomat. Once the skin is damaged, it may be difficult to recover.

RICHWAY & FUJI BIO INC.

1314 South King Street Suite 520, Honolulu, HI 96814

Tel: (808) 589-2800 Fax: (808) 597-1651

www.richwayandfujibio.com

customerservice@richwayusa.com

High Blood Pressure (Hypertension) –

We recommend people with chronically high blood pressure (hypertension) to use the Biomat with caution before and after use, and on **low heat only** (95F-113F). Sudden changes in body temperature and/or weather temperature may cause an increase in blood pressure.

Newborn Babies –

We recommend parents with newborns to wait until their baby is at least 6 months old before using the Biomat on **low heat only (95F-104F)** or **negative ions only**.

Infants –

We recommend that infants using the Biomat should use it on **low heat only** (95F-113F) and with adult supervision. If temperature is too high for the child, the temperature can't be controlled without an adult. Please use with caution.

Pregnancy –

We recommend women in their pregnancy to use the Biomat on **low to medium heat** (95F-131F).

Surgical Implants –

Recipients of Titanium, Metal, Ceramic, or Plastic implants can use the Biomat. Surgical implants generally reflect infrared rays and are not heated by an infrared heat system. Anyone who experiences pain in those areas should check with their physician.

Silicon - Silicon implants may be warmed by infrared rays. Silicon is known to melt at over 200 degrees Celsius / 392 Fahrenheit, so it should not be adversely affected by infrared rays. It is advised that you consult your surgeon before use.

Pain:

Pain should not be experienced when using the Biomat. However, the infrared heat will go to areas of disease or discomfort so some people may perceive this as pain and others as a sensation. If pain is persistent, discontinue use.

Worsened Condition:

If there are any worsened conditions when using the Biomat, discontinue use. Some temporary symptoms may occur, which can be attributed to the detoxification and healing process. For more information, please see the stages of improvement in Richway's Ions and Infrared Rays booklet.

Temperature Settings Explanation & Guide:

BIOMAT SETTINGS

SELECT FROM 9 SETTINGS TO CUSTOMIZE
YOUR OWN HEALTH CARE

Power Only **No Temperature** **Negative Ions Only**

- Relief from Severe Pain
Red Bouncing Lights on Bottom of Control Panel
Light Up. Neg Ions Will Self Regulate.

95° – 104° Blue-Green Settings **Broad Spectrum Cool Vitality** **Safest for Sensitive + Extended Use**

- All Purpose Healthcare Program & Support
- Super Immunity + Energy Booster
- First Aid + Irritable Symptom Relief (i.e. Headaches, Indigestion, Jet Lag)
- Regenerative Sleep + Recovery

113° – 122° Green-Gold Settings **Dynamic Subtle Warmth** **30 Minute – 2 Hour Cycles**

- Sports + Flexibility, Training + Recovery
- Cardio + Respiratory Aid
- Blood Pressure + Sugar Regulation
- Hormone Balance, Support & Restoration

131° – 140° High Gold Settings **Deep Penetrating Warmth** **15 to 90 Minute Sessions**

- Joint + Pain Relief
- Stress, Anxiety, Depression + Trauma Relief
- Profound Relaxation + Mood Elevator
- Meditation Enhancement Tool

149° – 158° Red Settings* **Deep Heat + Max. Therapeutics** **Power Sessions of 1/2 to 1 Hour**

- Sauna Level Cleansing + Detoxification
- Natural Weight Loss + Skin Rejuvenation
- Enhanced Sexual Vitality + Metabolic Aid
- Healthy Blood Circulation + Purification
- Environment + Bedding Sanitizer

* Preheat BioMat 1/2 hour to achieve highest heat setting
BioMat should not be set on high for longer than two hour intervals.

MINI BIOMAT:

Correlate to the
BioMat settings on
the left.

HYDRATE:

Please drink a glass of water at the
beginning + end of each BioMat Session.

NOTE:

After 4 hours
of tempera-
ture setting
on 122° or
higher,
controller will
automatically
drop the
temperature
to 113°.
This prevents
dehydration.

CAREFUL USE:

Do not sleep all night
on High Heat. Children,
Diabetics, and those
who are frail or suf-
fering from paralysis
should be monitored
while on the BioMat.
Never use high heat
temperatures on
Children, pregnant or
lactating women. Avoid
any heat on infants.

From the former Director of
Yokohama General Hospital

The Fourth Treatment for Medical Refugees

THERMOTHERAPY IN THE NEW CENTURY

Nobuhiro Yoshimizu, M.D., Ph.D.
Director of the Nakamachi Garden Clinic

**Exposure to far infrared rays is the
key to preventing metastatic cancers
and strengthening the immunity.**

**Scientific
facts!!!**

Some selected pages from the book:

The Fourth Treatment for Medical Refugees

Hypothermia is related to life

43.0°C Protein activation
41.0°C **H.S.P.**
40.0°C Bacteria and viruses
are susceptible to heat

37.0°C 3,000 essential enzymes
36.5°C are activating

35.5°C Difficulty in autonomic
nervous system
35.0°C Immunity greatly decreased

When the body
temperature is decreased
by **1 degree**

36% of immune
functions decline!

12% of basic
metabolism declines!

50% of enzymatic
activities decline!

Since heat shock proteins are made by heating up the normal cells, we do not need to heat up the body as much as when we treat cancer. Therefore, there is a treatment modality called "mild heating."

- Weakening cancer cells by increasing the local temperature above 42°C

The Fourth Treatment for Medical Refugees

► July 2008 tumor mass has shrunk and there is no need for surgery anymore

Breast cancer with three tumors, including one tumor of 3 cm in diameter (Patient T.K., 76 years old female)

Patient comment

I was diagnosed with breast cancer in February 2007 and asked to go through surgery. I had three tumor masses including one 3 cm tumor mass. Since I knew about the Biomat, I decided to refuse the surgery and heat up my body for one hour each day for four months. As of result, my 3 cm tumor shrunk down to 1 cm and one of the three tumors disappeared. All of my doctors were extremely surprised.

■ February 2007: three tumors

■ July 2008: three tumors are down to two

The Fourth Treatment for Medical Refugees

A lot of people give up during the first 60 minutes because it is difficult to withstand the heat.

However, people get used to it after a while. It is known that more treatments are more beneficial to the body.

► The Biomat's infrared rays penetrate 14 cm (6 inches) deep into the body

Temperature changes before, during and after the use of Biomat

	Age	Gender	Disease	Before	During treatment	After
1	46	Male	Lung cancer	36.5°C	37.6°C	38.6°C

6. help those with joint pain associated with arthritis. To share the tri-fold brochure below with others via Google drive, use:

tinyurl.com/BiomatProArthritisBrochure

ARTHRITIS: THE FACTS

1. Adults suffering from arthritis were less likely to be employed when compared to those without arthritis of the same age.
2. Adults with arthritis lose more workdays than those with any other medical condition.
3. Osteoarthritis and rheumatoid arthritis are responsible for a combined 172 million missed workdays every year.
4. One-third of working adults with arthritis have limitations in their ability to work.
5. American's spent 24% more on medical costs in 2003 (80.8 billion) than in 1997 (64.8 billion).
6. In 2003, working aged adults with arthritis earned on average \$3,613 less than healthy adults of the same age.
7. Nationwide, earnings losses due to arthritis went up from 99 billion in 1997 to 108 billion in 2003 – a 9% increase!

BIOMAT®

Arthritis Pain Relief

Get relief, NOW, @:
iWantABiomat.com

The Biomat® - a safer, holistic alternative

For arthritis pain relief!

**Get RELIEF, NOW!, @:
Biomats.com/danny &
Bio-Mats.com/danny**

DEEP PENETRATING HEAT

The BIOMAT® soothes arthritis pain by delivering warm infrared heat to the affected areas. The infrared rays penetrate deep into the body providing relief where no sports creams or patches can reach.

"I had been suffering from osteoarthritis for 10 years. I strongly dislike taking medication and was willing to try anything to get rid of the pain. I immediately began to feel relief within the first week... I am totally sold on the healing power of this wonderful product and am recommending it to others." - K. Allen

INCREASED MOBILITY

The Biomat's® infrared therapy effectively reduces the pain and stiffness associated with arthritis. The Biomat® relaxes your body and increases mobility so you can take on the day.

"My work is exceedingly physical and I have had arthritis and mobility issues for decades. The Biomat® is one component in an overall strategy to stay healthy and mobile, and to be able to continue working for as long as possible. For the record, the Biomat® is my only pain treatment. Nowadays, I have little to no awareness that I have arthritis at all." - Catherine

INCREASED CIRCULATION

The warmth of the Biomat® increases your blood circulation. This boost in blood flow brings oxygen and nutrients to injury sites, reducing inflammation and promoting the body's natural healing process.

"By my fourth (Biomat®) session, not only was I walking up the stairs easier, I was actually able to walk up a steep hill in my neighborhood! The Biomat® sessions really helped to reduce the pain and inflammation I was feeling so I have no problem recommending it to anyone with arthritic problems." - Alison

Learn more @: iWantABiomat.com

There are many ways to treat arthritis pain, and it all comes down to understanding your condition. Arthritis is an umbrella term for over 100 different types of joint diseases. Treatment is often medication. However, if you do not want to be one of the 16,500 who unnecessarily die each year from arthritis medications, you may want to consider other options. Some forms of arthritis pain can be managed through natural treatments, exercise, losing weight, physical therapy, acupuncture, tai chi and surgery.

Treatments for arthritis should be tailored for the individual's specific needs. The type and severity vary from person to person. Healthcare professionals should balance the risks and benefits of each treatment, to meet the personal needs of the patient.

8. Since virtually EVERYONE has fat-soluble toxins (like plasticizers) in them, be able to help others have far-infrared light penetrate up to 6 inches into their body to dislodge more toxins than any regular,

far-infrared sauna while offering them something that's much more space-saving, portable, and cost-effective

9. help save the lives of those taking sleeping pills by letting them know about a far safer alternative

10. help save the lives of over 16,500 Americans who die each and every year from gastro-intestinal toxicity caused by taking NSAIDs (non-steroidal, anti-inflammatory drugs), aka "pain-killers"

Review Article

*Medical Progress*GASTROINTESTINAL TOXICITY
OF NONSTEROIDAL
ANTIINFLAMMATORY DRUGSM. MICHAEL WOLFE, M.D., DAVID R. LICHTENSTEIN, M.D.,
AND GURKIRPAL SINGH, M.D.

ONE hundred years have passed since Felix Hoffman, working at Bayer Industries, reported the successful synthesis of acetylsalicylic acid as the first nonsteroidal antiinflammatory drug (NSAID).^{1,2} At the suggestion of Hermann Dreser, Bayer's chief pharmacologist at the time,³ the compound was called "aspirin" and was purported to represent a convenient mechanism for the delivery of salicylic acid in the treatment of rheumatic diseases, menstrual pain, and fever.² Approximately 40 years elapsed before Douthwaite and Lintott⁴ provided endoscopic evidence that aspirin could cause gastric mucosal damage. Numerous reports have corroborated this observation,⁵⁻⁸ and the introduction of more potent agents with an even greater propensity for toxic effects has increased the awareness of NSAID-induced gastroduodenal ulcer and provided impetus for the development of effective NSAIDs with a more favorable safety profile.

Starting in the early 1970s, numerous new NSAIDs were developed that were initially believed to be devoid of gastrointestinal toxicity, but few, if any, are entirely harmless. These agents constitute one of the most widely used classes of drugs, with more than 70 million prescriptions and more than 30 billion over-the-counter tablets sold annually in the United States.⁹ Although NSAIDs are generally well tolerated, adverse gastrointestinal events occur in a small but important percentage of patients, resulting in substantial morbidity and mortality.

From the Section of Gastroenterology, Boston University School of Medicine and Boston Medical Center, Boston (M.M.W., D.R.L.); and the Division of Immunology and Rheumatology, Stanford University School of Medicine, Palo Alto, Calif. (G.S.). Address reprint requests to Dr. Wolfe at the Boston Medical Center, Section of Gastroenterology, 88 E. Newton St., Boston, MA 02118-2393, or at michael.wolfe@bmc.org.
©1999, Massachusetts Medical Society.

EPIDEMIOLOGY OF GASTROINTESTINAL
COMPLICATIONS

Because of the broad and nonspecific definitions of gastrointestinal disorders caused by the use of NSAIDs, as well as differences in patient populations, drugs, dosages, and periods of use, estimates of the prevalence of adverse effects vary greatly. In general, at least 10 to 20 percent of patients have dyspepsia while taking an NSAID, although the prevalence may range from 5 to 50 percent.^{10,11} Within a six-month period of treatment, 5 to 15 percent of patients with rheumatoid arthritis can be expected to discontinue NSAID therapy because of dyspepsia.¹¹

According to prospective data from the Arthritis, Rheumatism, and Aging Medical Information System (ARAMIS), 13 of every 1000 patients with rheumatoid arthritis who take NSAIDs for one year have a serious gastrointestinal complication. The risk in patients with osteoarthritis is somewhat lower (7.3 per 1000 patients per year).¹²

The rate of NSAID-related serious gastrointestinal complications requiring hospitalization has decreased in recent years. The decrease may be due, at least in part, to extensive medical-education campaigns that have persuaded physicians to use newer, less toxic NSAIDs and non-NSAID analgesics in populations at high risk.¹²

The mortality rate among patients who are hospitalized for NSAID-induced upper gastrointestinal bleeding is about 5 to 10 percent.¹³ An analysis of data from ARAMIS has shown that the mortality rate attributed to NSAID-related gastrointestinal toxic effects is 0.22 percent per year, with an annual relative risk of 4.21 as compared with the risk for persons not using NSAIDs.¹² Although the annual mortality rate is low, it must be emphasized that because a large number of patients are exposed to NSAIDs, often for extended periods of time, the risk over a lifetime is substantial. In the United States, for instance, it is estimated that NSAIDs are used regularly by at least 13 million people with various arthritides. On the basis of these conservative figures and ARAMIS data, the annual number of hospitalizations in the United States for serious gastrointestinal complications is estimated to be at least 103,000. At an estimated cost of \$15,000 to \$20,000 per hospitalization, the annual direct costs of such complications exceed \$2 billion.¹⁴

It has been estimated conservatively that 16,500 NSAID-related deaths occur among patients with rheumatoid arthritis or osteoarthritis every year in the United States. This figure is similar to the number of deaths from the acquired immunodeficiency

I have been using the Biomat® for general health, and specifically for restoration after my frequent bouts of air travel. It is clearly more effective and physiological than a simple 'heating pad', but the available written material on the mechanism by which the Biomat might positively affect cell function positively was either missing or way too 'New Age' for me.

Recently, I came across some new information on far infrared rays and how they might work to clean and renew nearly every cell of the body. The basic research comes from Dr Gerald Pollack, the author of *Cells, Gels, and the Engines of Life* (Ebner and Sons, Seattle, 2001 - (see it on Amazon.com) whose work revolutionizes the way we think about cell function and how it is powered. In this piece, I extrapolate from Dr Pollack's work to how the Biomat may be working.

The standard model has cell function powered entirely by fuel – glucose, sugar, and the ATP → ADP conversion. Dr Pollack shows that some of the functions within the cell can be powered by light – far infrared light waves specifically.

As you might expect the action of the far infrared waves is via that most widely distributed substance in our bodies – water. Water molecules are 99% of the molecules in the body. Please note, this does not mean the body is 99% water, as H₂O molecules are very small, and protein molecules are huge in comparison. By volume, a body is generally between 60-75% water, depending on how old it is and how much fat it has. Nevertheless by number water very much dominates the molecular count.

We think we know a lot about water, but there are many aspects of this simple element that remain mysterious. I am not talking about Masaru Emoto's *Hidden Messages in Water* (Also on Amazon.com). Take the time to examine his studies and, as pretty and emotionally appealing as his results are, you will find his self-selecting methods do not stand up to scrutiny. Water is mysterious enough without making up stories. Pollack's work, on the other hand, has been replicated and confirmed by many labs.

Water is a dipole molecule, meaning it is polarized with electrically positive and negative ends.

In regular water – in the tap or in the pond – the molecules are constantly shifting position, going every which way, random and not lined up.

Run a current through it, and the water molecules will line up – the very definition of a 'liquid crystal'.

This also happens along edges, accounting for surface tension at the upper 'edge' of a glass of water which can support a carefully placed paper clip when it 'should' sink, or a water boatman beetle on the surface of a pond. Even water will 'float' on water for a bit as two same-charged surfaces repel each other.

As the water lines up in rows building out from the edges of these membranes, the aligned water molecules become a liquid crystal, creating what Dr Pollack calls an 'exclusion zone' (EZ). Pollack has

INFRARED RAYS FROM 8 GEMSTONES PROVIDING YOU WITH A NICE WARM FEELING

Naturally Enhanced by Mother Nature

Gemstones have been used for their therapeutic effects for thousands of years. The use of gemstones is not a New Age healing method far from it.

Documents have been found in Asia and the Middle East describing their medicinal uses. With its use steeped in tradition, only in recent times has science recognized the power that these stones can harness.

Crystals have been associated with the generation, transmission and storage of energy. Our watches, computers, lasers and televisions all use them. We have carefully selected the most effective semi-precious stones to enhance the power of the Bio-belt. The far infrared energy generated from these stones will gently penetrate your body providing warmth and comfort.

EIGHT PRECIOUS JEWELS

Smooth far-infrared rays generated from over 8 different types of jewels:
AMETHYST, TOURMALINE, GREEN JADE, CRYSTAL, CITRINE, TOPAZ, TIGER'S EYE, AND ELVAN.

NEGATIVE IONS

The gemstones Tourmaline and Amethyst are known to emit negative ions. Negative ions are invisible, odorless molecules that we come into contact with in certain environments including evaporating water, ocean surf, and around waterfalls.

FAR INFRARED

The Bio-belt produces far infrared rays, which are invisible waves of heat that have the ability to permeate deep into the body. These rays gently raise the surface temperature of the body, which is believed to enhance body functions on multiple levels.

There have been numerous studies identifying the benefits of far infrared. A study published in the Journal of the American College of Cardiology has found far infrared sauna therapy improves cardiac function and clinical symptoms in those with Chronic Heart Failure. The authors concluded that repeated treatment

improved vascular endothelial function.⁽¹⁾ Note: these studies apply to infrared energy, and were not performed using the Bio-belt.

FAR INFRARED AND BACK PAIN

A randomized, double-blind, placebo-controlled trial was conducted at Rothbart Pain Management Clinic in Ontario to test the effectiveness of pain relief obtained by applying infrared energy to the lower backs of patients with chronic, intractable low back pain. The study demonstrated a 50% reduction in chronic back pain over six weeks.⁽²⁾ When the Bio-belt is turned on, you will feel the gentle heat of the far infrared rays. This heat helps to relieve your body of its aches and pains.

Heat provides lower back pain relief by:

- Dilating the blood vessels of the muscles. This process increases the flow of oxygen and nutrients to the muscles, helping to heal the damaged tissue.
- Stimulating the sensory receptors in the skin, thereby decreasing the transmissions signals of pain to the brain and partially relieving the discomfort.
- Softening the muscles and tissues, thereby decreasing the stiffness and increasing the comfort.

INDICATIONS FOR USE

Temporary relief of:

- Minor muscle pain
- Minor joint pain and stiffness
- Joint pain associated with arthritis
- Muscle spasms
- Minor sprains / Minor strains
- Minor muscular back pain
- Relaxation of muscles
- Temporary increase of local circulation

Abstract

The Objective of this study is to find the possibility of the use of both Thermotherapy [Hyperthermia][Heat Therapy] and Vibroacoustic therapy [Vibration + Sound] to prevent and possibly reverse chronic neurological conditions like Dementia and Alzheimer's Disease in 12 subjects over 3 months using Pre/Post Biofeedback Testing, Oximeter, Wellness IQ Questionnaire [www.academyofwellness.com] and CBC blood test results including HBA1C. Overall Results were positive suggesting possible prevention and reversal of Dementia and Alzheimer's using Thermotherapy and Vibroacoustic Therapy.

Keywords: Alzheimer's; Thermotherapy; Vibroacoustic Therapy

A Proven Way to Lower Your Plastic Level

Okay, you have learned enough about plasticisers (phthalates) that outgas from out food containers, medications, IV's, dental materials, furnishings, clothes, cosmetics, fragrances, appliances, computers, automobiles, planes, construction materials and even the wiring in the walls, as just a few examples.

By now you know they are (1) proven by government studies to be in all of us, because they are (2) unavoidably ubiquitous environmental toxins. And you know (3) that they can damage the human chemistry in a multitude of ways including creating diabetes and all of its complications. **Phthalates are a perfect example of how unavoidable environmental toxins can create every disease.** Clearly, plasticizers (phthalates and BPA) can cause everything from birth defects and learning disabilities to cancers, obesity, hyperthyroidism, metabolic syndrome,

Alzheimer's, coronary artery disease, NASH, insulin resistance, anddiabetes.

And you have learned from *Detoxify or Die* that the far infrared sauna is one of the best ways on the planet to reduce your levels and thereby reduce disease. In fact, it is such a potent therapeutic tool that researchers at the Mayo clinic did the unthinkable. They put folks with end-stage congestive heart failure in the saunas. Normally even a heat wave kills off these folks. But because the far infrared technology is so different from a regular sauna, these folks improved so much that they were able to get off medications, something folks with heart failure never do as a rule. In fact median survival is about 5 years after diagnosis and that's with a dozen medications on board.

So wouldn't it be wonderful if we had another way to lower the level of phthalates? And wouldn't it be even greater if it didn't cost any money? Well, researchers have accomplished this dream. They took 5 families and educated them in how cans, packages, plastic bottles, plastic wrap and other food packagings as well as (especially!) eating out, contribute to high levels. Then for only 3 days the had them eat only "fresh foods" that were not packaged.

These families lowered their levels of various phthalates and BPA's from 53 to 96% in 3 days. There you have it folks, it doesn't get much more straight forward and simple than that. Recall the old original days of *The EI Syndrome* where many of us were so chemically sensitive that we had to use cellophane and glass refrigerator storage dishes.? Looks like that's still not such a bad idea. (Available NaturalLifestyleMarket.com 800-752-2775)

So with (1) common sense avoidance (or at least cutting back on plastic, especially concerning foods), (2) repairing and reving up the detoxification of our unavoidable plastics contamination from air, food and water, and (3) using your far infrared sauna to detoxify, you are so much further ahead than you were when you

RICHWAY NMN OCTA 3000™

Enhanced Absorption

Toxic Free Capsule material

Hydroxypropylmethylcellulose

Suggested Daily use

Take 2-6 capsules daily with or without food, preferably in the morning or as directed by your healthcare-practitioner.

Precautions for consumption

If you are pregnant or lactating, consult your doctor before use. In the case of a specific constitution or allergic constitution, some individuals may show hypersensitivity reactions, so check the ingredients before consuming. When taking or ingesting the product, you may get a sore throat, so please take it with plenty of water. Once it's opened, consume within the recommended time.

Storage method

Avoid direct sunlight and store in a cool place as it may be affected by moisture and heat. Keep out of reach of children.

Supplement Facts

- ▶ Serving Size : 2 Capsules
- ▶ Servings Per Container : 30

	Amount Per Serving

**HEATED 9 TIMES AT 3000°F
SUPERIOR QUALITY
IONIZED SALT**

The human body maintains 0.9% salinity, which is associated with a state of health. Detoxi is ionized and fully absorbed into the body, maintaining healthy cells and keeping you hydrated during thermotherapy sessions.

courtesy of: **Linktr.ee/Biomat**

Evolution of DETOXI™

Detoxi salt is made by using an ancient process that originated thirteen hundred years ago from a Buddhist temple in Korea. Natural sun-dried sea salt is packed inside hollow sections of 3 year old bamboo with pure yellow ochre and heated 9 times at 3000°F. The extreme heat eliminates toxins and chemicals and produces a unique grade of salt that contains numerous essential minerals and micronutrients such as magnesium, and potassium.

✓ Detoxi has high levels of phosphorus, zinc, and ionized hydrogen. A study by the Pusan National University concluded that Bamboo salt heated 9 times is different than ordinary salt and has alkaline properties with more Oxygen Hydrogen groups and anti-oxidant activity.⁽¹⁾ Detoxi supports our bodies without side effects and can be used along with other health food products.

pH and Osmosis Balance

Everything needs balance and that includes our bodies. One way to make sure we stay healthy is to make sure our body is neither too alkaline nor acidic.

Our body requires osmotic balance for life, without it we would die. The body naturally regulates our internal systems so that they are stable and remain relatively constant. This process is called homeostasis. Body acidity can increase when someone consumes or produces more acidic compounds and the body fails to eliminate them. The same goes for alkaline compounds. So the body is always playing a balancing act to keep us healthy.

▶ Actual Production Picture

Detoxi™ Manufacturing process

Natural sun-dried sea salt is heated 9 times at 3000°F, resulting in salt that is relatively free from impurities.

Heated at over 3000°F in the salt blast furnace

Maintained in a liquid state up to 9 times

The clean and pure upper layer is extracted

Product is safely film wrapped after decomposition to avoid endocrine-disrupting chemicals

DETOXI™ SUGGESTED USAGE

▶ The suggested amount to consume is 1 spoonful (1 gram, spoon provided) in an 8 oz cup of water:

- Before thermotherapy
- Before going to sleep and on an empty stomach in the morning
- Thirty (30) minutes before each meal, up to three (3) times a day
- Do not consume Detoxi without adequate fluid.

▶ This product brings out pure flavor when used with fruits and green vegetables.

Support your adrenal glands & get this ESSENTIAL nutrient @ **Bio-mats.com/danny**

RICHWAY DETOXI™

O.R.P. -420

Oxidation Reduction Potential measures a molecular charge and its ability to oxidize or reduce oxidation. It determines what's an oxidant or an anti-oxidant. Oxidation is the decay that we see when metal starts to rust or a banana begins to turn brown.

In water, lower pH has a positive ORP and is an oxidant. Higher pH has a negative ORP and has the ability to be an anti-oxidant. The greater the number the stronger it is. Drinking water with a negative ORP is healthier because of its anti-oxidant ability to "fight free" radicals within the body.

Iron and Oxidation Test

Sun-dried Sea Salt vs. Detoxi Salt: Salt water with 19% salinity

► Test date: December 20, 2011

► Observation progress report after 7 months of testing

Sun-dried Sea Salt <ORP level: 116>

There is a large amount of residue and the degree of iron corrosion is very severe.

Detoxi Salt <ORP level: -420>

Oxidation has not occurred and the water is clear.

FEATURES OF DETOXI™ IONIZED SALT

Toxins within pure salt are eliminated when heated 9 times at 3000°F, changing it into ionized salt. This ionized salt is Detoxi.

1 Maintains the Balance of Minerals and Nutrients in the Body

Salt is the treasure of trace elements. According to a study conducted at the Pusan National University of Korea, Bamboo salt heated 9 times contains more potassium, calcium, magnesium and manganese compared to other salts.⁽²⁾

2 Maintains the Balance of Body Energy

Detoxi aids our body's natural ability to regulate itself. Detoxi salt absorbs and stores a vast amount of energy during the high heating and fast cooling process.

3 Detoxi and Biomats - High Temperature Far Infrared Ray Care

What happens when the Biomats is used at a high temperature after taking Detoxi salt with water? Detoxi salt keeps you hydrated during thermotherapy sessions. In addition, the necessary salinity of the human body is naturally adjusted, making sure that abundant amounts of electrolytes remain within the body.

✓ The far infrared rays of the Biomats permeate deep into the body, which may increase perspiration. Therefore, it is important to

consume this product with water before using the Biomats to prevent dehydration.

The Difference between Detoxi™ and Ordinary Salt

Salt is not merely a seasoning, but a necessary mineral. Long term inadequate salt intake can cause general body weakness, dizziness, edema, muscle spasm, dehydration, and heart problems, amongst other problems that are medically related to salt depletion. Prevent salt depletion by understanding the difference between Detoxi and ordinary salt.

	Ordinary Fine Salt	Detoxi Salt
Processing	Electrolysis	Heated 9 times at 3000°F
Content	Sodium Chloride with 99.5% purity	Low sodium and high chloride Natural product containing various nutrients and 22 trace elements
pH Level	Acidity pH 6.3	Strong Alkalinity pH 7.1-7.5
Taste	Strong salt taste	Weak salt taste

Evaluating the reduction of cancer pain using the infra-red negative ions amethyst Bio Mat in 12 subjects over 6 months

George Grant*

Richmond Hill, Ontario L4C 9H8 Canada

**Abstract**

The amethyst Bio Mat was used by 12 subjects for one hour three times per week as well as using the Detox Salt during sleep daily over 6 months period. We used two different biofeedback devices to measure pain reduction, Complete blood count (CBC) 12 hours fasting blood test including white blood cell count (WBC) and high-sensitivity C-reactive protein (HS-CRP) to measure inflammation. The Far Infrared/Negative Ions Amethyst Bio Mat reduced pain by 21% and reduced HS-CRP by 15% and reduced Stress by 52% of 12 subjects in 6 months as validated by Pre and Post Biofeedback Brain Scans as well as fasting blood test to measure the stress hormone cortisol.

Introduction

Thermotherapy was enhanced when the Bio Mat was combined with the Detox salt during sleep to reduce pain and side effect of chemotherapy. The Bio Mat technology is a combination of far infrared rays, negative ion effects and the conductive properties of amethyst channels. These three powerful health stimulators are combined in a single, easy-to-use product with remarkable healing properties. The Bio Mat delivers soothing, deep-penetrating heat while stimulating the regeneration of damaged cells in the body. It's a safe and natural way to achieve optimal health now and maintain a stronger, more resilient body in the future. The combination of the bio-belt and the bio mat is a highly effective thermotherapy available to medical professionals and home consumers who want to reduce pain, stress and abdominal fat. The Bio Mat is an approved medical device by FDA [1-4].

The Bio Mat is a natural heating pad which lies on top of a massage table or a home mattress. It converts electricity through a computerized control panel, produced by Texas Instruments, into Far Infrared Rays (FIR), nature's invisible light. FIR was discovered by NASA to be the safest, most beneficial light wave. This reduces pain, swelling, increases blood flow and reduce stress by increasing the secretion of serotonin.

The Bio Mat also produces Negative Ions, nature's energizer, which deliver a molecular level massage. This accelerates and deepens all healing and cleansing processes. It balances pH by decreasing acidity and is considered the "Master Power Switch" which activates the body's entire cellular communication system, making everybody function work better! Negative Ions alleviate allergies, migraines and sinus problems. These two components are transferred through Amethyst Quartz channels which cover the entire Bio Mat's surface. Amethyst Quartz is nature's Super Conductor, scientifically found to offer the steadiest, most powerful delivery of healthy far infrared light waves and the highest vibrational frequencies into the body.

The core of Bio Mat technology is a combination of far infrared rays [6-12 microns], negative ion effects and the conductive properties

of amethyst channels. These three powerful health stimulators are combined in a single, easy-to-use product with remarkable healing properties. The Bio Mat manufactured and distributed by Richway International Inc. delivers soothing, deep-penetrating heat while stimulating the regeneration of damaged cells in the body. This highly effective therapy is now available to medical professionals and home consumers who want to improve health and well-being with products based on Nobel prize-winning scientific research pioneered by NASA and developed using pure, natural materials [5-7]. The Bio-Mat Professional is registered an FDA Medical Device #2954299.

Objectives of the study

Examine the Benefits of the Bio Mat using the Infra-Red and Negative Ions for reducing pain in cancer patients for 12 subjects over 6 months. The main objective of the study is to measure the reduction of inflammation, joint pain and stiffness for 12 subjects suffering from cancer over 6 months using biofeedback devices and blood tests including HS-CRP that correlates with pain and inflammation.

Methods

12 subjects were tested before and after using the Bio Mat for one hour 3 times per week and sleep on the Bio Mat daily over 6 months. The biofeedback test for stress using ICAP Brain Scan, and the measurement for pain was done using the Bio Resonance Magnetic analyzer Biofeedback Device. The results were reduction in stress by 52% among subjects tested and an increased sense of well-being. The

28. You can start on a part-time basis and still keep your day job or main gig

29. work whenever you want, from wherever you want, with whomever you want, and as much (or as little) as you want

30. NO territory restrictions & NO monthly sales quotas or have to buy products on a regular basis (EXCEPTION: in order to advance from Independent Sales Associate to become Partner, you just need to

make a personal purchase of commissionable product that totals over \$1,500)

31. get paid THREE different ways (personal sales commissions, UNLIMITED, WEEKLY Binary Bonuses of \$400, \$800, or \$1,200 PER Business Center (BC), and FREE Richway products after accumulating & redeeming a certain dollar amount of "Product Certificates") AND have the chance to earn up to a \$1,000/month CAR ALLOWANCE (such as one of the Tesla electric vehicles shown below:)

after you reach Diamond Executive or Royal Family (the highest) sales ranks. You can even elect to have your commissions loaded onto a pre-paid debit card (after paying a small card fee of USD\$4.95) as shown below:

RICHWAY COMPENSATION PLAN OVERVIEW

Unique and Lucrative Plan

Transform Your Future: Passive Income Blueprint!

A THRILL OF HOPE SUCCESS IN RESIDUAL INCOME

1. ACHIEVEMENT LEVELS

We have simplified the process enabling ISAs to focus exclusively on sales as they advance through the compensation plan.

- ▶ **To be Partner** • \$1500 in Business Volume
- ▶ **To be Gold Executive** • \$4500 in total Business Volume (Partner + \$3,000)
- ▶ **To be Emerald Executive** • \$10,500 in total Business Volume (Gold + \$6,000)
- ▶ **To be Diamond Executive** • \$16,500 in total Business Volume (Emerald + \$6,000)
- ▶ **To be Royal Family** • Sponsor 4 Diamond ISAs & earn \$14,400 in binary bonuses in a 12-week period

2. COMMISSION AND BONUS

- ▶ **Partner** • 10% Commission
- ▶ **Gold Executive**
 - 10% Commission & 10% Product Certificates on each sponsored order
 - Qualifies for \$400 Binary Bonuses
 - Qualifies for the Sponsor 2 Gold 10,000 Bonus (you may earn this bonus 4 times per year). Submit in the Richway BackOffice to receive this bonus
- ▶ **Emerald Executive**
 - 15% Commission & 10% Product Certificates on each sponsored order
 - Qualifies for \$400 and \$800 Binary Bonuses
 - Qualifies for the Sponsor 2 Gold \$10,000 Bonus (you may earn this bonus 4 times per year). Submit in the Richway BackOffice to receive this bonus

► **Diamond Executive**

- 20% Commission & 10% Product Certificates on each sponsored order
- Qualifies for 20% Product Certificates for Diamond Club Members
- Qualifies for \$400, \$800, and \$1200 Binary Bonuses
- Qualifies for the Sponsor 2 Gold \$10,000 Bonus (you may earn this bonus 4 times per year). Submit in the Richway BackOffice to receive this bonus

Additional benefits of joining Diamond Club Membership include:

- Qualifies for the \$10,000 Diamond Special Bonus Challenge
- Qualifies for the Diamond Infinity Bonus
- Qualifies for a 10% Automobile Allowance

► **Royal Family Member**

- 20% Commission & 10% Product Certificates on each sponsored order
- Qualifies for 20% Product Certificates for Diamond Club Members
- Qualifies for \$400, \$800, and \$1200 Binary Bonuses
- Qualifies for the Sponsor 2 Gold \$10,000 Bonus (you may earn this bonus 4 times per year), Submit in the Richway BackOffice to receive this bonus

Additional benefits of joining Diamond Club Membership include:

- Qualifies for the \$10,000 Diamond Special Bonus Challenge
- Qualifies for the Diamond Infinity Bonus
- Qualifies for the Royal Family Infinity Bonus
- Qualifies for a 10% Automobile Allowance

3. PRODUCT CERTIFICATES

Product Certificates hold significant value within the Richway compensation plan, as they provide the opportunity to purchase additional products at a substantial 70% discount. All Independent Sales Associates (ISAs) earn 10% in Product Certificates, while Diamond Club Members earn 20% in Product Certificate.

- Product Certificates can be used to discount up to 70% off from the Sales Volume
- Product Certificates can be earned from Sales Commission

4. ICE BREAKER BENEFITS (6 MONTHS)

All distributors who are starting the Richway business for the first time will receive the same commissions as the Royal Family members of the Diamond Club for the first 6 months.

- Cash Commission: 20% ► P.C. Commission: 20%

5. SPONSOR 2 GOLD \$10,000 BONUS

- Sponsor your **1st 2 Golds** and earn • **\$1,000**
- Sponsor your **2nd 2 Golds** and earn • **\$2,000**
- Sponsor your **3rd 2 Golds** and earn • **\$3,000**
- Sponsor your **4th 2 Golds** and earn • **\$4,000**

Total: \$10,000

The \$10,000 bonus for sponsoring two Golds can be earned up to four times a year.

09/23/2018

Aloha New Diamond Executive,

Congratulations! You are now a qualified DIAMOND EXECUTIVE member of Richway & Fuji Bio Inc.!

You want to better yourself and have the burning desire to succeed. You exhibit commitment, the passion to make a difference, a vision for achieving positive change and the courage to take action. You demonstrate the most important factors for success and we are here to help you in this journey!

You will now receive the following benefits:

- \$400 Diamond Level Achievement Product Certificate
- May earn a 15% Sales Commission
- May earn 8% in Product Certificates
- May sponsor other Independent Sales Associates
- Earn up to \$1,200 in Binary Bonuses per Business Center, per week
- May have an unlimited amount of Business Centers
- May qualify for the Automobile Allowance Program/Office Allowance Program (maximum of \$1,000/month)
- Promotion opportunity to become part of the Diamond Club and Royal Family

Diamond Club Benefits:

- Your 8% Product Certificates will be increased to 10%
- 50% discount of one of each item per year of membership
- One Product Certificate for the purchase of an Alkal-Life 7000sL for the amount of \$400
- You can challenge an additional \$3,000, \$6,000, \$8,000, and \$10,000 Special Cash Bonus

Binary Bonus:

Richway's enhanced Binary Bonus is a residual income source, not a sales commission and is based on Sales Volume of your Group Sales Volume. If you have a total of 6 points of Sales Volume of your group from your left leg and 6 points of Sales Volume of your group from your right leg then you will get paid \$400 per week each time (each \$500 Sales Volume is considered a point). If you have a total of 12 points of Sales Volume of your group from your left leg and 12 points of Sales Volume of your group from your right leg then you will get paid \$800 per week each time. If you have a total of 18 points of Sales Volume of your group from your left leg and 18 points of Sales Volume of your group from your right leg then you will get paid \$1,200 per week each time.

Should you have any questions, please do not hesitate to contact us by email at customerservice@richwayusa.com or by phone 808-589-2800 / 855-338-6410 (toll-free).

Mahalo,
